Investment Objective: To provide ultimate level of safety to its unitholders through investments in sovereign securities issued by the Central and State government.

(B) INTRODUCTION OF DIRECT PLAN

In accordance with Para D titled "Separate Option for direct investments" under Circular No. CIR/IMD/DF/21/2012 dated September 13, 2012 issued by Securities and Exchange Board of India (SEBI), JM Financial Trustee Company Private Limited, (the "Trustee" to the Mutual Fund), decided to introduce a separate plan for direct investments (i.e. investments not routed through an AMFI Registration Number (ARN) Holder ("Distributor") (hereinafter referred to as "Direct Plan") with effect from January 1, 2013 (the "Effective Date") as under:

1. Introduction of Direct Plan: Direct Plan is only for investors who purchase/subscribe units in a Scheme directly with the Mutual Fund and is not available for investors who route their investments through a Distributor.

Scheme eligibility: The Mutual Fund has introduced Direct Plan in all the open-ended schemes of the Mutual Fund (hereinafter referred as "Schemes") except in the plans discontinued for further subscriptions.

2. Plans / Options / Sub-options: All Plans / Options / Sub-Options being offered under the Scheme ("Normal Plan") will also be available for subscription under the Direct Plan. Thus, from the Effective Date, there shall be 2 Plans available for subscription under the Schemes viz., Normal Plan and Direct Plan. Portfolio of the Scheme under the Normal Plan and Direct Plan will be common.

The provisions pertaining to Minimum Subscription Criteria, Load and Additional Purchases will be applicable at Scheme (Portfolio) Level.

3. Scheme characteristics: Scheme characteristics such as Investment Objective, Asset Allocation Pattern, Investment Strategy, risk factors, facilities offered and terms and conditions including load structure will be the same for the Normal Plan and the Direct Plan, except that:

No exit load shall be charged for any switch of investments between Normal Plan (whether the investments were made before or after the Effective Date) and Direct Plan within the same scheme. The applicable exit load, if any, will be charged for redemptions/ switch outs of the scheme (i.e. at portfolio level) before the completion of the stipulated load/ lock-in period. The stipulated load/ lock-in period will be reckoned from the date of allotment of units for a particular transaction in the scheme (i.e. at portfolio level) till the date of redemption / switch out from that scheme, irrespective of the number of intra-scheme switches by the investor between the aforementioned two dates (e.g. switches between plans/sub-plans/options/sub-options within the scheme having the same portfolio)

The extant provisions of applicability of load on redemptions/ switches from one Scheme to another will continue to be applicable.

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

4. Applicable NAV and allotment of units:

The provisions of applicability of NAV and allotment of units in case of Direct Plan will be as are currently applicable for the Normal Plan.

5. Eligible investors / modes for applying: All categories of investors (whether existing or new Unitholders), as permitted under the SID of the Schemes, are eligible to subscribe under Direct Plan. Investments under Direct Plan can be made through various modes offered by the Mutual Fund for investing directly with the Mutual Fund {except Stock Exchange Platform(s) and all other Platform(s) where investors' applications for subscription of units are routed through Distributors}.

6. How to apply:

- a. Investors subscribing under Direct Plan of a Scheme will have to indicate "Direct Plan" against the Scheme name in the application form/ transaction slip e.g. "JM G-Sec Fund (Direct)".
- b. Investors may also indicate "Direct" in the ARN column of the application form/ transaction slip. However, in case Distributor/ Sub-broker code is mentioned in the application form, but "Direct Plan" is indicated against the Scheme name or in any other place or in any manner whatsoever in the Application Form/ transaction slip, the Distributor/ Sub-broker code will be ignored and the application will be processed under Direct Plan.
- c. Further, where application is received for Normal Plan without Distributor code or "Direct" is mentioned in the ARN Column, the application will be processed under the Direct Plan.

7. Existing Investments:

- (a) Investors wishing to transfer their accumulated unit balance held under Normal Plan (through lumpsum / systematic investments made with or without Distributor code) to Direct Plan will have to switch /redeem their investments (subject to applicable Exit Load, if any) and apply under Direct Plan.
- (b) Investors who have invested without Distributor code and have opted for Dividend Reinvestment facility under Normal Plan may note that the dividend will continue to be reinvested in the Normal Plan only.

8. Investments through systematic routes:

(a) In case of Systematic Investment Plan ("SIP") / Systematic Transfer Plan ("STP") etc. registered prior to the Effective Date without any distributor code under the Normal Plan, installments falling on or after the Effective Date will automatically be processed under the Direct Plan only.

(b) Investors who had registered for SIP facility prior to the Effective Date with distributor code shall continue under the Normal Plan. However if the investor wishes that their future installments be invested into the Direct Plan, he shall make a written request to the Mutual Fund in this behalf. The Mutual Fund will take at least 15 Business days to process such requests. Intervening installments will continue in the Normal Plan.

In case of (a) and (b) above, the terms and conditions of the existing registered enrolment such as tenure, amount of the SIP etc. shall continue to apply.

(c) In case of Systematic Transfer Facilities which were registered with a Distributor Code under the Normal Plan prior to the Effective Date, the future installments under the said Facilities shall continue as under the Normal Plan

In case such investors wish to invest under the Direct Plan through these facilities, they would have to cancel their existing enrolments and register afresh for such facilities.

9. Redemption requests: Where Units under a Scheme are held under both Normal and Direct Plans and the redemption / Switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along with the folio number).

In the event of the investor not clearly mentioning the name of the Plan (Normal or Direct)/ Option/ Sub-option/or wherever there is an ambiguity in choice of Plan (Normal or Direct)/ Option/ Sub-option opted for in the request for redemption/switch-out of all/specified amount/units, in the absence of clarificatory letter from the investor on the day of the transaction, the AMC/ Registrar reserves the right to process the redemption/switch out request from the Normal Plan or Direct Plan if such redemption request can be processed in totality. In such case, the redemption will first be effected from the Normal Plan.

E.g. If an investor has investment of Rs. 5 lakh in an Normal Plan and Rs. 10 lakh in the Direct Plan and a redemption request is received from him for redemption of Rs. 2 lakh without indicating which Plan the redemption is to be effected from, the AMC/ Registrar will effect the redemption from the Normal Plan. In the same example, if the redemption request was for Rs. 7 lakh, the redemption would be effected from the Direct Plan.

However, in case it is not possible to effect the redemption from any one of the Plans in totality i.e. either from the Normal or from the Direct Plan, such redemption request will be treated as void ab-initio and rejected.

E.g. If the redemption request in the above example is for Rs. 12 lakh, the AMC / Registrar will summarily reject the redemption request.

Where units are held under any one i.e. under Normal or Direct Plan, the redemption will be processed from such Plan.

10. Tax consequences: Switch / redemption may entail tax consequences. Investors should consult their professional tax advisor before initiating such requests.

#In terms of AMFI Best Practice Guidelines Circular No. 58 dated May 19, 2015, the said Bonus Options have been discontinued. Accordingly, the Scheme shall have only Dividend Option and Growth Option. It has been deemed to discontinue fresh subscriptions through (fresh/ additional/switches/STP/SIP) under the Bonus Options of scheme. Thereafter, separate NAVs will be calculated and published for each of the said options.

Under these options, the Trustees of the Mutual Fund reserve the right to declare dividend in the respective dividend options of the Scheme, subject to availability of distributable surplus.

The Trustees to JM Financial Mutual Fund reserves the right to change/modify the above provisions at a later date.

It is clarified that the minimum investment is applicable at the respective Options/ Sub-options level i.e. Growth, Dividend and will be considered after taking into account permissible DD charges.

Additional Purchase Amount: Rs.1000/- and any amount thereafter.

Default Option/ Sub-options:

In case, an existing unit holder of a scheme makes an additional purchase in an existing folio held by him, where the scheme name is clearly mentioned but the name of the Plan/Option is not specified, the AMC may, at its discretion, allot units in the Plan/Option where he had made an investment in the past i.e. such Plan/Option of the Scheme will be treated as the Default Plan/Option, in the absence of specific instructions/ clarificatory letter from the unit holder, received on the date of the additional investment. Such investment would be subject to the load structure and lock-in of the default Plan/Option.

In case, the investor does not mention the name of the Plan/ Option/ Sub-option/or wherever there is an ambiguity in choice of Plan/ Option/ Sub-option opted for purchase/ switch application(s), the AMC/ Registrar may allot the units as per default Plans/ Options/ Sub-options, if no clarification letter is provided by the investor on the transaction date by EOD. However, in case of purchase application, the AMC/ Registrar at its discretion may allot the units based on the Plan/ Option/ Sub-option appearing on the payment instrument.

In case, there is complete ambiguity regarding the default Plans/ Options/ Sub-options, the application will be treated as invalid and will be summarily rejected.

In case, investor applies for dividend payout option, for the scheme which does not have dividend payout option, the application will be processed under dividend reinvestment option and investor will be allotted units accordingly.

Where units under a Scheme are held both in the Normal Plan(s) as well as the Surviving Plan and in the event of the investor not clearly mentioning the name of the Scheme/Plan/Option/ Sub-option/or wherever there is an ambiguity in choice of Scheme/Plan/Option/Sub-option opted for in the request for redemption/switch-out of all/specified amount/units, in the absence of clarificatory letter from the investor on the day of the transaction, the AMC/Registrar reserves the right to process the redemption/switch out request from the Normal Plan(s) or Surviving Plan if such redemption request can be processed in totality. In such case, the redemption will first be effected from the Normal Plan(s).

E.g. If an investor has investment of Rs. 5 lakh in an Normal Plan and Rs. 10 lakh in the Surviving Plan and a redemption request is received from him for redemption of Rs. 2 lakh without indicating which Plan the redemption is to be effected from, the AMC/ Registrar will effect the redemption from the Normal Plan. In the same example, if the redemption request was for Rs. 7 lakh, the redemption would be effected from the Surviving Plan.

However, in case it is not possible to effect the redemption from any one of the Plans in totality i.e. either from the Normal or from the Surviving Plans, such redemption request will be treated as void ab initio and rejected.

E.g. If the redemption request in the above example is for Rs. 12 lakh, the AMC / Registrar will summarily reject the redemption request.

Where units are held under any one i.e. under Normal or Surviving Plan, the redemption will be processed from such Plan.

Default Option for all SIP/STP-Out/SWP

In case, the Investor does not mention the start date or end date under the SIP/STP-out/SWP, the 1st of the subsequent month, after completing 30 days from the date of registration, will be considered as the default SIP/STP-out/SWP start date and the SIP/STP-out/SWP will be treated to have been opted on Perpetual basis. However, the facility on Perpetual Basis will also be subject to the other applicable terms and conditions set out elsewhere in this document.

PURCHASE/ MINIMUM APPLICATION AMOUNT

Minimum amount as set out in the table above for investments in each Plan / Option and in multiples of any amount thereafter in case of

first time investments. For ongoing investments in an existing folio the investment would be Rs. 1,000/- and in multiples of any amount thereafter. However, there is no upper limit for investment.

The minimum investment is applicable at the respective Plans/Sub-plans/Options/ Sub-options level i.e. Growth, Dividend.

In case of purchase transactions, where there is a mismatch in the amounts on the Transaction Slip / Application Form and the payment instrument / credit received, the AMC may at its discretion allot the units for the lesser of the two amounts and refund / utilize the excess, if any, for any other transaction submitted by the same investor, subject to the fulfillment of other regulatory requirements for the fresh transaction.

Pursuant to Association of Mutual Funds in India (AMFI) Best Practice Guidelines Circular No. 48/2014-15 dated June 24, 2014, the investors are hereby informed that in case of fresh/additional purchases, if the name of a particular Scheme on the application form/transaction slip differs from the name on the Cheque/Demand Draft (payment instrument), then JM Financial Asset Management Limited (the "AMC") shall process the application and allot units at the applicable Net Asset Value of the scheme mentioned in the application form/transaction slip duly signed by the investor, given that the same constitutes a valid legal document between the investor and the AMC.

The AMC reserves the right to call for other additional documents as may be required, for processing such transactions. The AMC also reserves the right to reject such transactions.

The AMC, thereafter, shall not be responsible for any loss suffered by the investor due to the discrepancy in the scheme name mentioned in the application form/transaction slip and Cheque/Demand Draft.

(L) REDEMPTION/ MINIMUM REDEMPTION AMOUNT

The Fund will endeavour to dispatch the redemption cheque / draft within 10 business days from the date of acceptance of valid redemption request.

There is no minimum and maximum limit on the amount/units which can be redeemed/switched-out. The investor is free to redeem any or all units outstanding in his/her/their folio.

However, in case of switch transaction, the minimum investment provisions of the switch-in Scheme/Plan i.e. for fresh/additional purchase, shall continue to be applicable. In the event of failure to meet the requirement of switch-in Scheme/Plan, such switch requests will be treated as cancelled/rejected.

A Unit holder has the option to request for redemption either in Rupees or in number of Units. If the redemption request indicates both amount in Rupees and number of Units, the lower of the two in value term will be considered. Where a Rupee amount is specified or deemed to be specified for redemption, the number of Units redeemed will be the amount redeemed divided by the redemption price (subject to the levy of applicable STT and exit load).

In case of difference/ ambiguity in the amount and units mentioned in any request for Redemption/ Switch, the minimum value (of units and amount) on rupee equivalent basis on the Transaction/ applicable NAV date will be considered by the AMC, provided the investor has not furnished any clarification in writing, duly signed on the date of transaction. In the event of investor not having filled in the Amount/ Units in the Transaction Slip, the AMC will redeem/ switch out all the outstanding units in case the Scheme, Plan, Option are clearly mentioned.

In case, an Investor fails to mention the complete name of the scheme upto plan/ sub - plan level while making request for redemption/ switch-out, the AMC reserves the right to redeem/ switch-out all/specified desired units/ value provided the investor is having holdings only in one scheme/plan/option and the folio number is clearly mentioned or if he maintains one folio. Otherwise, such incompletely filled requests would be summarily rejected without processing.

The number of Units so redeemed will be subtracted from the Unit holder's account and a monthly industry level Mutual Fund Consolidated Account Statement (CAS) containing the details will normally be dispatched to the Unitholders latest by 10th of subsequent month by NSDL/CDSL in case of Demat Units or by AMFI's appointed Agencies (currently M/s. Manipal Technologies Ltd. or M/s. Sessaashai Business Forms Pvt. Ltd.) for verified PAN cases and by the registrar (i.e. M/s. Karvy Fintech Private Limited) for other cases.

In case, an investor has purchased Units on more than one business day, the Units purchased prior in time (i.e. those Units which have been held for the longest period of time), will be deemed to have been redeemed first, i.e. on first in first out basis. Unit holders may also request for repurchase of their entire holding and close the account by indicating the same at the appropriate place in the Transaction Slip/ Repurchase form.

Pursuant to Association of Mutual Funds in India (AMFI) Best Practice Guidelines Circular No.28/2012-13 dated May 15, 2012, unit holders shall note that application for redemption/switch-out for units, for which funds are not realized via purchase or switch-in in the scheme of the Mutual Fund, shall be liable to be rejected. In other words, redemption or switch out of units will be processed only if the funds for such units are realized in the scheme, by way of payment instructions/transfer or switch-in funding process.

Unit holders shall further note that the AMC at its sole discretion, may process redemption/switch-out request partially, if funds for part of the units being redeemed/switched-out are realised.

Further, all switch funding shall be in line with redemption funding timelines adopted by the concerned scheme i.e. if a scheme follows T+3 payout for redemption, the switch out funding will also be made on T+3 and not earlier or later than T+3, where T is the day of transaction.

Restriction on redemption in Mutual Funds:

In terms of circular SEBI/IMD/CIR No.5/126096/08 dated May 23, 2008, facility of restriction on redemption under any scheme of the mutual fund could be made only after the approval from the Board of Directors of the Asset Management Company (AMC) and the Trustees. The provisions are general in nature and do not specifically spell out the circumstances in which restriction on redemption may be applied; leading to discretionary disclosures and practices in the industry.

SEBI vide its circular no. SEBI/HO/IMD/DF2/CIR/P/2016/57 dated May 31, 2016 has laid down the criteria and the conditions in case AMC's wish to impose restrictions on redemptions.

Vide the said circular, SEBI has advised that:

- 1) Restriction may be imposed when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets such as:
 - i. Liquidity issues
 - ii. Market failures, exchange closures and/or
 - iii. Operational issues
- 2) Restriction on redemption may be imposed for a specified period of time not exceeding 10 working days in any 90 days period.

 - a. Redemption requests upto Rs. 2 lakh shall not be subject to such restriction.
 - b. Where redemption requests are above Rs. 2 lakh, JMF AMC shall redeem the first Rs. 2 lakh without such restriction and remaining part over and above Rs. 2 lakh, shall be subject to restriction, as may be imposed.

In case of Direct Plan

Where Units under a Scheme are held under both Normal and Direct Plans and the redemption / Switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along with the folio number).

In the event of the investor not clearly mentioning the name of the Plan (Normal or Direct)/ Option/ Sub-option/or wherever there is an ambiguity in choice of Plan (Normal or Direct)/ Option/ Sub-option opted for in the request for redemption/switch-out of all/specified amount/units, in the absence of clarificatory letter from the investor on the day of the transaction, the AMC/ Registrar reserves the right to process the redemption/switch out request from the Normal Plan or Direct Plan if such redemption request can be processed in totality. In such case, the redemption will first be effected from the Normal Plan.

E.g. If an investor has investment of Rs. 5 lakh in an Normal Plan and Rs. 10 lakh in the Direct Plan and a redemption request is received from him for redemption of Rs. 2 lakh without indicating which Plan the redemption is to be effected from, the AMC/ Registrar will effect the redemption from the Normal Plan. In the same example, if the redemption request was for Rs. 7 lakh, the redemption would be effected from the Direct Plan.

However, in case it is not possible to effect the redemption from any one of the Plans in totality i.e. either from the Normal or from the Direct Plan, such redemption request will be treated as void ab-initio and rejected.

E.g. If the redemption request in the above example is for Rs. 12 lakh, the AMC / Registrar will summarily reject the redemption request.

Where units are held under any one i.e. under Normal or Direct Plan, the redemption will be processed from such Plan.

I. INTRODUCTION

A. RISK FACTORS

Standard Risk Factors:

- Mutual funds and securities investments are subject to market risks and there is no assurance or guarantee that the objectives of the Fund will be achieved.
- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the schemes.
- The names of the schemes do not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The Sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of 1 Lac made by it towards setting up the Fund.
- The schemes under this Scheme Information Document are not guaranteed or assured return schemes.

A Unitholder in JM Financial Mutual Fund's Debt schemes should be aware of the risks generally associated with investments in the fixed income and money markets. Below are some of the common risks associated with investments in fixed income and money market securities. These risks include:

Other Risk Factors:

a) Derivative Risks

In the derivative markets there are risk factors and issues concerning the use of derivatives that investors should understand. Derivatives require the maintenance of adequate controls to monitor the transactions entered into, the ability to assess the risk that a derivative adds to the portfolio and the ability to manage the risks as a result of the failure of the counterparty to comply with the terms of the derivative contract. Other risks in using derivatives include the risk of mispricing or improper valuation of derivatives, credit risk where the danger is that of a counterparty failing to honour its commitment, liquidity risk where the danger is that the derivatives cannot be sold at prices that reflect the underlying assets, rates and indices and price risk where the market price may move in adverse fashion.

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the Fund Manager will be able to identify or execute such strategies.

The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments and are set out in more detail under the head

POLICY AND SPECIAL CONSIDERATION ON INVESTMENT IN DERIVATIVES AND HEDGING PRODUCTS

b) Interest Rate Risk

As with all debt securities, changes in interest rates will affect the NAVs of the Scheme as the prices of securities generally increase as interest rates decline and generally decrease as interest rates rise. Prices of long term securities generally fluctuate more in response to interest rate changes than of shorter-term securities. Interest rate movements in the Indian debt markets can be volatile leading to the possibility of large price movements up or down in debt and money market securities and thereby to possibly large movements in the NAV.

c) Liquidity or Marketability Risk

This refers to the ease at which a security can be sold at or near its true value. The primary measure of liquidity risk is the spread between the bid price and the offer price quoted by a dealer. Liquidity risk is characteristic of the Indian fixed income market. Trading volumes, settlement periods and transfer procedures may restrict the liquidity of some of these investments. Different segments of the Indian financial markets have different settlement periods, and such periods may be extended significantly by unforeseen circumstances. The length of time for settlement may affect the Scheme in the event it has to meet an inordinately large number of redemption or of restructuring of the Scheme's investment portfolio.

d) Credit Risk

Credit risk or default risk refers to the risk that an issuer of a fixed income security may default (i.e., will be unable to make timely principal and interest payments on the security). Because of this risk, debentures are sold at a yield spread above those offered on treasury securities which are sovereign obligations and generally considered to be free of credit risk. Normally, the value of a fixed income security will fluctuate depending upon the actual changes in the perceived level of credit risk as well as the actual event of default.

e) Redemption Risk

As the liquidity of the investments made by the Scheme could, at times, be restricted by trading volumes and settlement periods, the time taken by the Mutual Fund for redemption of Units may be significant in the event of an inordinately large number of redemption requests

or a restructuring of the Scheme.

f) Securities Lending

In case the Scheme undertakes stock lending under the Regulations, it may, at times be exposed to counter party risk and other risks associated with the securities lending. Unitholders of the Scheme should note that there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities deposited with the approved intermediary.

g) Reinvestment Risk

This risk refers to the interest rate levels at which cash flows received from the securities in the Scheme or from maturities in the Scheme are reinvested. The additional income from reinvestment is the “interest on interest” component. The risk is that the rate at which interim cash flows can be reinvested will fall.

h) Investment exposure of the Fund with reference to Securitised Debt and risk factors specific to investments in Securitised papers

The Fund will predominantly invest only in those securitisation issuances which have a rating of AA and above indicating the high level of safety from credit risk point of view at the time of making an investment. The Fund will not invest in foreign securitised debt.

The Fund may invest in various type of securitisation issuances, including but not limited to Asset Backed Securitisation, Mortgage Backed Securitisation, Personal Loan Backed Securitisation, Collateralized Loan Obligation / Collateralized Bond Obligation and so on.

The Fund will conduct an independent due diligence on the cash margins, collateralisation, guarantees and other credit enhancements and the portfolio characteristic of the securitisation to ensure that the issuance fits in to the overall objective of the investment in high investment grade offerings irrespective of underlying asset class.

Types of securitised debt vary and carry different levels and types of risks. Credit risk on securitised bonds depends upon the originator and varies depending on whether they are issued with recourse to originator or otherwise. Even within securitised debt, AAA rated securitised debt offers lesser risk of default than AA rated securitised debt. A structure with Recourse will have a lower credit risk than a structure without recourse.

Risk analysis on underlying asset classes in securitisation

Generally the following asset classes for securitisation are available in India :

- (a) Commercial Vehicles
- (b) Auto and Two wheeler pools
- (c) Mortgage pools (residential housing loans)
- (d) Personal Loan, credit card and other retail loans
- (e) Corporate loans/receivables

Underlying assets in securitised debt may assume different forms and the general types of receivables include auto finance, credit cards, home loans or any such receipts. Credit risks relating to these types of receivables depend upon various factors including macro economic factors of these industries and economies. Specific factors like nature and adequacy of property mortgaged against these borrowings, nature of loan agreement / mortgage deed in case of home loan, adequacy of documentation in case of auto finance and home loans, capacity of borrower to meet its obligation on borrowings in case of credit cards and intentions of the borrower influence the risks relating to the asset borrowings underlying the securitised debt.

Holders of the securitised assets may have low credit risk with diversified retail base on underlying assets especially when securitised assets are created by high credit rated tranches. Risk profiles of Planned Amortisation Class tranches (PAC), Principal Only Class Tranches (PO) and Interest Only class tranches (IO) will differ depending upon the interest rate movement and speed of prepayment.

In terms of specific risks attached to securitisation, each asset class would have different underlying risks, however, residential mortgages are supposed to be having lower default rates as an asset class. On the other hand, repossession and subsequent recovery of commercial vehicles and other auto assets is fairly easier and better compared to mortgages. Some of the asset classes such as personal loans, credit card receivables, etc., being unsecured credits in nature, may witness higher default rates. As regards corporate loans/receivables, depending upon the nature of the underlying security for the loan or the nature of the receivable the risks would correspondingly fluctuate. However, the credit enhancement stipulated by rating agencies for such asset class pools is typically much higher and hence their overall risks are comparable to other AAA rated asset classes. The rating agencies have an elaborate system of stipulating margins, over collateralisation and guarantees to bring risk limits in line with the other AA rated securities.

The risks associated with the underlying assets can be described as under :

Credit card receivables are unsecured. Automobile / vehicle loan receivables are usually secured by the underlying automobile / vehicle and sometimes by a guarantor. Mortgages are secured by the underlying property. Personal loans are usually unsecured.

Corporate loans could be unsecured or secured by a charge on fixed assets / receivables of the company or a letter of comfort from the parent company or a guarantee from a bank / financial institution. As a rule of thumb, underlying assets which are secured by a physical asset / guarantor are perceived to be less risky than those which are unsecured. By virtue of this, the risk and therefore the yield

in descending order of magnitude would be credit card receivables, personal loans, vehicle /automobile loans, mortgages and corporate loans assuming the same rating.

Some of the factors, which are typically analyzed for any pool are as follows :

Size of the loan : generally indicates the kind of assets financed with loans. Also indicates whether there is excessive reliance on very small ticket size, which may result in difficult and costly recoveries. To illustrate, the ticket size of housing loans is generally higher than that of personal loans. Hence in the construction of a housing loan asset pool for say Rs.10,000,000/- it may be easier to construct a pool with just 10 housing loans of Rs.1,000,000 each rather than to construct a pool of personal loans as the ticket size of personal loans may rarely exceed Rs.500,000/- per individual. Also to take this illustration further, if one were to construct a pool of Rs.10,000,000/- consisting of personal loans of Rs.100,000/- each, the larger number of contracts (100 as against one of 10 housing loans of Rs.10 lakh each) automatically diversifies the risk profile of the pool as compared to a housing loan based asset pool.

Average original maturity of the pool : indicates the original repayment period and whether the loan tenors are in line with industry averages and borrower's repayment capacity. To illustrate, in a car pool consisting of 60-month contracts, the original maturity and the residual maturity of the pool viz. number of remaining installments to be paid gives a better idea of the risk of default of the pool itself. If in a pool of 100 car loans having original maturity of 60 months, if more than 70% of the contracts have paid more than 50% of the installments and if no default has been observed in such contracts, this is a far superior portfolio than a similar car loan pool where 80% of the contracts have not even crossed 5 installments.

Loan to Value ("LTV") Ratio : Indicates how much % value of the asset is financed by borrower's own equity. The lower the LTV ratio, the better it is. This ratio stems from the principle that where the borrower's own contribution of the asset cost is high, the chances of default are lower. To illustrate for a vehicle costing Rs. 50 lakhs, if the borrower has himself contributed Rs. 40 lakhs and has taken only Rs.10 lakhs as a loan, he is going to have lesser propensity to default as he would lose an asset worth Rs. 50 lakhs if he defaults in repaying an installment. This is as against a borrower who may meet only Rs. 5 lakhs out of his own equity for a vehicle costing Rs. 50 lakhs. Between the two scenarios given above, the latter would have higher risk of default than the former.

Average seasoning of the pool : Indicates whether borrowers have already displayed repayment discipline. To illustrate, in the case of a personal loan, if a pool of assets consists of those who have already repaid 80% of the installments without default, this certainly is a superior asset pool than the one where only 10% of the installments have been paid. In the former case, the portfolio has already demonstrated that the repayment discipline is far higher.

Default rate distribution : Indicates how much % of the pool and overall portfolio of the originator is current, how much is in 0-30 DPD (days past due), 30-60 DPD, 60-90 DPD and so on. The rationale here is very obvious - as against 0-30 DPD, the 60-90 DPD is certainly a higher risk category.

Unlike in plain vanilla instruments, in securitisation transactions, it is possible to work towards a target credit rating, which could be much higher than the originator's own credit rating. This is possible through a mechanism called "Credit enhancement" and is fulfilled by filtering the underlying asset classes and applying selection criteria, which further diminishes the risk inherent for a particular asset class. The purpose of credit enhancement is to ensure timely payment to the investors, if the actual collections from the pool of receivables for a given period are short of the contractual payouts on securitisation. Securitisation is normally a non-recourse instrument and therefore, the repayment on securitisation would have to come from the underlying assets and the credit enhancement. Therefore, the rating criteria centrally focuses on the quality of the underlying assets.

World over, the quality of credit ratings is measured by default rates and stability. An analysis of rating transition and default rates, witnessed in both international and domestic arena, clearly reveals that structured finance ratings have been characterized by far lower default and transition rates than that of plain vanilla debt ratings. Further, internationally, in case of structured finance ratings, not only are the default rates low but post default recovery is also high.

In the Indian scenario, also, more than 95% of issuances have been AAA rated issuances indicating the strength of the underlying assets as well as adequacy of credit enhancement.

Interest Rate Risk

The change in market interest rates – prepayments may not change the absolute amount of receivables for the investors, but may have an impact on the re-investment of the periodic cash flows that the investor receives in the securitised paper.

Limited liquidity & price risk

Presently, secondary market for securitised papers is not very liquid. There is no assurance that a deep secondary market will develop for such securities. This could limit the ability of the investor to resell them. Even if a secondary market develops and sales were to take place, these secondary transactions may be at a discount to the initial issue price due to changes in the interest rate structure.

Limited recourse, delinquency and credit risk

Securitised transactions are normally backed by pool of receivables and credit enhancement as stipulated by the rating agency, which differ from issue to issue. The credit enhancement stipulated represents a limited loss cover to the Investors. These certificates represent an undivided beneficial interest in the underlying receivables and there is no obligation of either the Issuer or the Seller or the originator, or the parent or any affiliate of the seller, issuer and originator. No financial recourse is available to the certificate holders against the investors' representative. Delinquencies and credit losses may cause depletion of the amount available under the credit enhancement and thereby

the investor payouts may get affected if the amount available in the credit enhancement facility is not enough to cover the shortfall. On persistent default of an obligor to repay his obligation, the servicer may repossess and sell the underlying asset. However many factors may affect, delay or prevent the repossession of such asset or the length of time required to realize the sale proceeds on such sales. In addition, the price at which such asset may be sold may be lower than the amount due from that obligor.

Risks due to possible prepayments: Weighted Tenor / Yield

Asset securitisation is a process whereby commercial or consumer credits are packaged and sold in the form of financial instruments. Full prepayment of underlying loan contract may arise under any of the following circumstances :

- Obligor pays the receivable due from him at any time prior to the scheduled maturity date of that receivable; or
- Receivable is required to be repurchased by the seller consequent to its inability to rectify a material misrepresentation with respect to that receivable; or
- The servicer recognizing a contract as a defaulted contract and hence repossessing the underlying asset and selling the same; or
- In the event of prepayments, investors may be exposed to changes in tenor and yield.

Bankruptcy of the originator or seller

If originator becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the sale from originator to Trust was not a sale then an investor could experience losses or delays in the payments due. All possible care is generally taken in structuring the transaction so as to minimize the risk of the sale to Trust not being construed as a "True Sale". Legal opinion is normally obtained to the effect that the assignment of Receivables to Trust in trust for and for the benefit of the Investors, as envisaged herein, would constitute a true sale.

Bankruptcy of the investor's agent

If an investor's agent becomes subject to bankruptcy proceedings and the court in the bankruptcy proceedings concludes that the recourse of investor's agent to the assets/receivables is not in its capacity as agent/Trustee but in its personal capacity, then an investor could experience losses or delays in the payments due under the swap agreement. All possible care is normally taken in structuring the transaction and drafting the underlying documents so as to provide that the assets/receivables if and when held by investor's agent is held as agent and in Trust for the investors and shall not form part of the personal assets of investor's agent. Legal opinion is normally obtained to the effect that the investor's agent's recourse to assets/receivables is restricted in its capacity as agent and Trustee and not in its personal capacity.

Credit Rating of the Transaction / Certificate

The credit rating is not a recommendation to purchase, hold or sell the certificate in as much as the ratings do not comment on the market price of the certificate or its suitability to a particular investor.

There is no assurance by the rating agency either that the rating will remain at the same level for any given period of time or that the rating will not be lowered or withdrawn entirely by the rating agency.

Risk of Co-mingling

The servicers normally deposit all payments received from the obligors into the collection account. However, there could be a time gap between collection by a servicer and depositing the same into the collection account especially considering that some of the collections may be in the form of cash. In this interim period, collections from the Loan Agreements may not be segregated from other funds of the servicer. If the servicer fails to remit such funds due to investors, the investors may be exposed to a potential loss.

Risk factors associated with processing of transaction through Stock Exchange Mechanism:

The trading mechanism introduced by the stock exchange(s) is configured to accept and process transactions for mutual fund units in both Physical and Demat Form. The allotment and/or redemption of Units through NSE and/or BSE, on any Business Day will depend upon the modalities of processing viz. collection of application form, KYC documentation, order processing/ settlement, etc. upon which the Fund has no control. Moreover, transactions conducted through the stock exchange mechanism shall be governed by the operating guidelines and directives issued by respective recognized stock exchange(s).

RISK MITIGATION MEASURES FOLLOWED:

Risk management is an integral part of the investment process. The AMC incorporates adequate safeguards for controlling risks in the portfolio construction process, which would be periodically evaluated. Online monitoring of various exposure limits are done by the Front Office System. The system incorporates all the investment restrictions as per SEBI guidelines and 'soft' warning alerts at appropriate levels for preemptive monitoring. The system also enables identifying & measuring the risk through various risk measurement tools and analyzes the same so as to act in a preventive manner. In addition to minimize the major risks for equity & debt schemes, the following steps are taken

Credit Risk – Risk of investing in unsustainable / weak companies

- In depth credit evaluation of the money market and debt instruments (other than GSecs) proposed to be invested in.
- Issuer wise and Industry wise exposure limits.
- Independent rating of scheme portfolio by recognized rating agency.

- Defining the minimum rating grades at portfolio level.

Interest Rate Risk – Risk of bond prices falling as a result of rise in interest rates.

- Active duration management.
- Cap on Average Portfolio maturity depending upon the scheme objective and Strategy.
- Portfolio exposure spread over various maturities depending on the mandates of the respective schemes.

Liquidity Risk – High impact cost at the time of buying/selling

- Focus on good quality paper having good liquidity in the market at the time of portfolio construction.
- Asset-Liability management

The scheme may also use derivatives and other hedging instruments, as permitted, from time to time, in order to protect the value of the portfolio.

B. REQUIREMENT OF MINIMUM INVESTORS/ INVESTMENT IN THE SCHEME

(Applicability for an open-ended scheme)

The Scheme/ plan (at portfolio level) shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/ Plan(s). In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

B. HOW WILL THE SCHEME ALLOCATE ITS ASSETS?

ASSET ALLOCATION PATTERN

Under normal circumstances the Investment Pattern of the Scheme will be as follows.

Instruments	Indicative Allocations (% of total assets)		Risk Profile
	Minimum	Maximum	
Government Securities / Treasury Bills	80	100	Low - Medium
TREPS/REPO	0	20	Low

The exposure in derivatives shall not exceed 50% of the net assets of the scheme.

The above limits shall be in line with the investment objective of the Scheme.

The AMC may, from time to time, pending deployment of funds of the Scheme in securities in terms of the investment objective of the Scheme, invest the funds of the Scheme in short-term deposits of scheduled commercial banks subject to compliance with SEBI Circular SEBI/IMD/CIR No.1/ 91171 /07 dated April 16, 2007 as amended by SEBI Circular SEBI/IMD/CIR No.7/129592/08 dated June 23,2008.

The AMC may from time to time, pending investment in terms of investment objective of the Scheme, for a short term period on defensive consideration invest upto 100% of the funds available in overnight interbank call/notice money and/or repos and/ or TREPS, the primary motive being to protect the Net Asset Value of the Scheme and protect unitholders interest so also to earn reasonable returns on liquid funds maintained for redemption/ repurchase of units.

Changes in Investment pattern: Subject to the SEBI Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute and that they can vary substantially within the maximum and minimum allocation limits, depending upon the perception of the Investment Manager, the intention being at all times to seek to protect the interests of the Unitholders. Such changes in the investment pattern will be for short term and defensive considerations.

Provided further and subject to the above, any change in the asset allocation affecting the investment profile of the Scheme shall be effected only in accordance with the provisions of sub regulation (15A) of Regulation 18 of the SEBI Regulation, as detailed later in this document.

In accordance with SEBI Circular No. CIR/IMD/DF/24/2012 dated November 19, 2012, SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/35 dated February 15, 2016, SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2016/68 dated August 10, 2016, & SEBI Circular No. SEBI/HO/IMD/DF2/CIR/P/2017/14 dated February 22, 2017, total exposure of debt schemes of mutual funds in a particular sector (excluding investments in Bank CDs, TREPS, G-Secs, TBills, short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks) shall not exceed 25% of the net assets of the scheme;

Provided that an additional exposure to financial services sector (over and above the limit of 25%) not exceeding 15% of the net assets of the scheme shall be allowed only by way of increase in exposure to Housing Finance Companies (HFCs);.

Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 25% of the net assets of the scheme.

C. WHERE WILL THE SCHEME INVEST?

Subject to the Regulations, the corpus of the Scheme can be invested in any (but not exclusively) of the following securities:

- Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
- Money market instruments permitted by SEBI/RBI.
- Derivative instruments like Interest Rate Swaps (including interest rate futures), Forward Rate Agreements and such other derivative instruments permitted by SEBI and RBI
- Any other like instruments as may be permitted by RBI/SEBI/ such other Regulatory Authority from time to time.

Investment in overseas securities, when made, shall be made in accordance with the requirements stipulated by SEBI and RBI from time to time.

INVESTMENTS IN ADRS / GDRS/ OVERSEAS SECURITIES :

It is the AMC's belief that the investment in ADRs/ GDRs/overseas securities offer new investment and portfolio diversification opportunities into multi-market and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC in the future provided they are considered appropriate in terms of the overall investment objectives of the schemes. The Schemes may then, if necessary, seek permission from SEBI and RBI to invest abroad in accordance with the investment objectives of the Scheme and in accordance with any guidelines issued by SEBI / RBI / any other relevant regulatory authority from time to time.

Since the Schemes would invest only partially in ADRs/ GDRs/ overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Schemes. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated by SEBI/RBI any other relevant regulatory authority from time to time.

To the extent that the assets of the Schemes will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by the changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital also may be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of the other restrictions on investment.

Offshore investments will be made subject to any/all approvals, conditions thereof as may be stipulated by SEBI/RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs, and overseas regulatory costs.

The Scheme may also invest in overseas financial assets as and when permitted by the concerned regulatory authorities in India. SEBI has permitted mutual funds to invest in Foreign Debt Securities in the countries with fully convertible currencies, both short-term and long-term debt instruments with highest rating. They are also permitted to invest in the G-secs of other countries, where the countries are AAA rated. Mutual funds are also permitted to invest in unit securities issued by overseas mutual funds or Unit Trusts that invest in the aforesaid securities which are rated and are registered with the overseas regulators.

Apart from the above the returns from such overseas debt instruments will also attract the interest rate risk which is directly related to the underlining prices of such securities.

Exposure to foreign securities:

Under normal circumstances the scheme shall not have an exposure of more than 25% of its net assets in foreign securities. However, the AMC with a view to protecting the interests of the investors, may increase exposure in foreign securities as deemed fit from time to time; but such investment will not exceed the limits laid down by SEBI / RBI / any other relevant regulatory authority in this respect from time to time. The Mutual Fund shall not invest more than 10% of its Net Assets as on January 31st of each relevant year, in foreign securities.

STOCK LENDING BY THE MUTUAL FUND

Subject to the SEBI Regulations as applicable from time to time, the Fund may, if the Trustee permits, engage in Stock Lending. Stock Lending means the lending of securities to another person or entity for a fixed period of time, at a negotiated compensation in order to enhance returns of the portfolio. The securities lent will be returned by the borrower on the expiry of the stipulated period. The AMC will adhere to strict limits should it engage in Stock Lending.

1. Not more than 25% of the net assets of the Scheme can generally be deployed in Stock Lending.
2. Not more than 5% of the net assets of the Scheme can generally be deployed in Stock Lending to any single counter party. The Fund may not be able to sell such lent out securities and this can lead to temporary illiquidity.

POLICY AND SPECIAL CONSIDERATION ON INVESTMENT IN DERIVATIVES AND HEDGING PRODUCTS

The Scheme may take derivatives position in the fixed income and equity markets based on the opportunities available subject to the guidelines provided by SEBI from time to time and in line with the overall investment objective of the Scheme.

Fixed Income Derivatives

Generally, interest rate swaps involve exchange of a fixed rate to a floating rate of interest or vice versa. These are known as Plain Vanilla Swaps. The RBI has currently allowed only these swaps in the Indian market. An interest rate swap agreement (as per guidelines issued by RBI on 7th July 1999 and 1st November 1999) from fixed rate to floating rate will be an effective hedge for portfolio in a rising interest rate environment.

Interest Rate Swaps (IRS)

An IRS is an agreement between two parties to exchange stated interest obligations for an agreed period in respect of a notional principal amount. The most common form is a fixed to floating rate swap where one party receives a fixed (pre-determined) rate of interest while other receives a floating (variable) rate of interest.

Forward Rate Agreement (FRA)

A FRA is basically a forward starting IRS. It is an agreement between two parties to pay or receive the difference between an agreed fixed rate (the FRA rate) and the interest rate (reference rate) prevailing on a stipulated future date, based on a notional principal amount for an agreed period. The only cash flow is the difference between the FRA rate and the reference rate. As is the case with IRS, the notional amounts are not exchanged in FRAs.

Basic structure of a Swap

Assume that the Scheme has a Rs. 20 crore floating rate investment linked to MIBOR (Mumbai Inter Bank Offered Rate). Hence, the Scheme is currently running an interest rate risk and stands to lose if the interest rate moves down. To hedge this interest rate risk, the Scheme can enter into a 6 month MIBOR swap. Through this swap, the Scheme will receive a fixed predetermined rate (assume 12%) and pays the “benchmark rate” (MIBOR), which is fixed by the National Stock Exchange of India limited (NSE) or any other agency such as Reuters. This swap would effectively lock-in the rate of 12% for the next 6 months, eliminating the daily interest rate risk. This usually routed through an intermediary who runs a book and matches deals between various counterparties.

The steps will be as follows :

- Assuming the swap is for Rs. 20 crore June 1, 2011 to December 1, 2011. The Scheme is a fixed rate receiver at 12% and the counterparty is a floating rate receiver at the overnight rate on a compounded basis (say NSE MIBOR).
- On June 1, 2011 the Scheme and the counterparty will exchange only a contract of having entered this swap. This documentation would be as per International Swap Dealers Association (ISDA). On a daily basis, the benchmark rate fixed by NSE will be tracked by them.
- On December 1, 2011 they will calculate the following –
- The Scheme is entitled to receive interest on Rs. 20 crore at 12% for 184 days i.e. Rs. 1.21 crore, (this amount is known at the time the swap was concluded) and will pay the compounded benchmark rate.
- The counterparty is entitled to receive daily compounded call rate for 184 days & pay 12% fixed.
- On December 1, 2011, if the total interest on the daily overnight compounded benchmark rate is higher than Rs. 1.21 crore, the Scheme will pay the difference to the counterparty. If the daily compounded benchmark rate is lower, then the counterparty will pay the Scheme the difference.
- Effectively the Scheme earns interest at the rate of 12% p.a. for six months without lending money for 6 months fixed, while the counterparty pays interest @ 12% p.a. for 6 months on Rs. 20 crore, without borrowing for 6 months fixed.

The above example illustrates the benefits and risks of using derivatives for hedging and optimizing the investment portfolio. Swaps have their own drawbacks like credit risk, settlement risk, etc. However, these risks are substantially reduced as the amount involved is interest streams and not principal.

Valuation of Derivative Products:

- a) The traded derivatives shall be valued at market price in conformity with the stipulations of sub clauses (i) to (v) of clause 1 of the Eighth Schedule to the SEBI Regulations, as amended from time to time.
- b) The valuation of untraded derivatives shall be done in accordance with the valuation method for untraded investments prescribed in sub clauses (i) and (ii) of clause 2 of the Eighth Schedule to the SEBI Regulations as amended from time to time.

Risk factors

- **Credit Risk:** The credit risk is the risk that the counter party will default on obligations and is generally negligible, as there is no exchange of principal amounts in a derivative transaction.
- **Market Risk:** Derivatives carry the risk of adverse changes in the market price.
- **Illiquidity Risk:** The risk that a derivative cannot be sold or purchased quickly enough at a fair price, due to lack of liquidity in the market.
- The fund pays the daily compounded rate. In practice however there can be a difference in the actual rate at which money is lent in the call market and the benchmark, which appears and is used.

D. WHAT IS THE INVESTMENT STRATEGY?

Scheme Specific Investment Strategy

In line with the objective of JM G-Sec Fund, the investment strategy has been designed to ensure safety which is a paramount feature of investment in this fund with returns commensurate to investment in Government Securities.

The Investment Manager would endeavour to achieve an improved return than the returns traditionally expected from such an instrument by actively managing the portfolio. Further, by enlarging the basket of Government securities, the safety of the Fund as a whole will be elevated to the highest degree than what is normally associated with an individual security.

Scientific approach to investment

The Mutual Fund adopts a scientific approach to investments. Securities are selected for various funds by the fund managers based on a continuous study of trends in industries and companies, including management capabilities, global competitiveness, earning power, growth / payout features and other relevant investment criteria, which would, inter-alia include evaluation of the outlook of the economy, exposure

to various industries and geographical regions, evaluation of the intrinsic worth of specific opportunities such as primary market transactions, private placements, trading opportunities etc.

Liquidity Management

The Fund Manager may invest in short term deposits of scheduled commercial banks pending deployment of funds in line with SEBI Circular no. SEBI/IMD/CIR No. 1/ 91171 /07 April 16, 2007_till suitable opportunities are present. The Scheme may also keep a portion in cash or near cash for meeting the expenses of the Scheme.

Mode of Investment

The securities in which the investment manager may invest would be through primary as well as secondary market, private placement etc. These securities may be those listed on various stock exchanges as well as unlisted securities.

Procedure for taking investment decisions

The investment policy of the AMC has been determined by the Investment Advisory Committee ("IAC") which has been approved by the Boards of the AMC and Trustee. At the strategic level, the broad investment philosophy of the AMC and the authorised exposure limits are spelt out in the Investment Policy of the Mutual Fund and the SEBI Regulations. During trading hours, the Fund Managers have the discretion to take investment decisions for the Scheme within the limits defined in the SEBI Regulations and the Investment Policy of the Mutual Fund.

The designated Fund Manager of the Scheme will be responsible for taking day-to-day investment decisions and will inter-alia be responsible for asset allocation, security selection and timing of investment decisions.

PORTFOLIO TURNOVER POLICY

The AMC as such does not have a policy statement on portfolio turnover for Scheme. However, the general portfolio management style is biased towards maintaining a low portfolio turnover rate. In the debt market, trading opportunities may arise due to changes in interest rate policy announced by the Reserve Bank of India, shifts in the yield curve, credit rating changes or any other factors where in the opinion of the fund manager there is an opportunity to enhance the total return of the portfolio. Since the investments would nearly match the maturity profile of the respective plans, the consequent brokerages and transactions costs would be low.

INTER SCHEME INVESTMENTS

The Scheme may invest in other Schemes managed by the AMC or in the Schemes of any other Mutual Funds, provided it is in conformity to the investment objectives of the investor Scheme and in terms of the prevailing SEBI Regulations. As per the SEBI Regulations, no investment management fees will be charged for such investments and the aggregate inter Scheme investment made by all Schemes of JM Financial Mutual Fund or in the Schemes under the management of other asset management companies shall not exceed 5% of the net asset of the Mutual Fund as on date of the investment.

IMPORTANT

It must be clearly understood that the above referred portfolio strategies are not absolute, and that they can vary substantially depending upon the Fund Manager's perception as to whether the stock/debt market is in an overheated state or has fallen well below a level they consider appropriate taking into account the factors prevailing at that time, the intent being to protect the Unitholders interest, especially the NAV of the Fund.

The Fund Manager may, from time to time, at its' absolute discretion review and modify the strategy, provided such modification is in accordance with SEBI Regulations.

In addition to the existing provisions of SEBI circular No.IMD/DF/11/2010 dated August 18, 2010, the following are prescribed vide SEBI circular no. SEBI/HO/IMD/DF2/CIR/P/2017/109 dated September 27, 2017:

- i. To reduce interest rate risk in a debt portfolio, mutual funds may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

(Portfolio Modified Duration * Market Value of the Portfolio)

(Futures Modified Duration * Futures Price / PAR)

- ii. In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.
- iii. Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

- a) Exposure to IRFs is created only for hedging the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.
- b) Mutual Funds are permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio (excluding the hedged portions, if any) and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of Para 3 of SEBI circular dated August 18, 2010. The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

- i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or
- ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.
- c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.
- d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of Para 3 of SEBI circular dated August 18, 2010.

- iv. The basic characteristics of the scheme should not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

Explanation: In case of long term bond fund, after hedging the portfolio based on the modified duration of the portfolio, the net modified duration should not be less than the minimum modified duration of the portfolio as required to consider the fund as a long term bond fund.

- v. The interest rate hedging of the portfolio should be in the interest of the investors.

Mutual Fund schemes may imperfectly hedge their portfolio or part of their portfolio using IRFs, subject to the following conditions:

- i. Prior to commencement of imperfect hedging, existing schemes shall comply with the provisions of Regulation 18 (15A) of SEBI (Mutual Funds) Regulations, 1996 and all unit holders shall be given a time-period of at least 30 days to exercise the option to exit at prevailing NAV without charging of exit load.

The risks associated with imperfect hedging shall be disclosed and explained by suitable numerical examples in the offer documents and also needs to be communicated to the investors through public notice or any other form of correspondence.

- ii. In case of new schemes, the risks associated with imperfect hedging shall be disclosed and explained by suitable numerical examples in the offer documents.

The AMC and investment companies managed by the Sponsor(s), their affiliates, their associate companies and subsidiaries may invest either directly or indirectly in the Scheme. The AMC shall not charge any fees on investment made by it in the units of the Schemes in accordance with sub-regulation 3 of Regulation 24 of the Regulations and shall charge fees on such amounts in future only if the SEBI Regulations so permit. The maximum amount the AMC can invest in any of the schemes shall be its networth. The affiliates, associates, the Sponsor, subsidiaries of the Sponsor and/or the AMC may acquire a substantial portion of the Scheme's units and collectively constitute a major investment in the Schemes. Consequently in the event of repurchase of units held by such affiliates/associates and Sponsor, there be an adverse impact on the units of the Scheme as the timing of such repurchase may impact the ability of other unitholders to repurchase their units. The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time.

<p>Minimum amount for purchase/ redemption/switches</p>	<p>The table on minimum investment amounts for the scheme under this Scheme Information Document is set out elsewhere in the document.</p> <p>Minimum amount of Rs. 5,000/- per Plan / Option/ sub-option i.e. Dividend and Growth and in multiples of any amount thereafter in case of first time investments. For ongoing investments in an existing folio the investment would be Rs. 1,000/- and in multiples of any amount thereafter. However, there is no upper limit for investment. The minimum investment is applicable at the respective Plans /Options/ Sub-options level i.e. Growth, Dividend etc.</p>

There is no minimum and maximum limit on the amount/units which can be redeemed/switched-out. The investor is free to redeem any or all units outstanding in his/her/their folio.

However, in case of switch transaction, the minimum investment provisions of the switch-in Scheme/Plan i.e. for fresh/additional purchase, shall continue to be applicable. In the event of failure to meet the requirement of switch-in Scheme/Plan, such switch requests will be treated as cancelled/rejected.

A Unit holder has the option to request for redemption either in Rupees or in number of Units. If the redemption request indicates both amount in Rupees and number of Units, the lower of the two in value term will be considered. Where a Rupee amount is specified or deemed to be specified for redemption, the number of Units redeemed will be the amount redeemed divided by the redemption price (subject to the levy of applicable STT and exit load).

In case of difference/ ambiguity in the amount and units mentioned in any request for Redemption/ Switch, the minimum value (of units and amount) on rupee equivalent basis on the Transaction/ applicable NAV date will be considered by the AMC, provided the investor has not furnished any clarification in writing, duly signed on the date of transaction. In the event of investor not having filled in the Amount/ Units in the Transaction Slip, the AMC will redeem/ switch out all the outstanding units in case the Scheme, Plan, Option are clearly mentioned.

In case, the investor has not mentioned the plans/ sub-plans etc. in the redemption request specifically where he is having holdings in various plans/ sub-plans etc. of the particular scheme, AMC will summarily rejects such redemption request if the investor has not furnished any clarification in writing, duly signed on the date of transaction.

In case of Direct Plan

Where Units under a Scheme are held under both Normal and Direct Plans and the redemption / Switch request pertains to the Direct Plan, the same must clearly be mentioned on the request (along with the folio number).

In the event of the investor not clearly mentioning the name of the Plan (Normal or Direct)/ Option/ Sub-option/or wherever there is an ambiguity in choice of Plan (Normal or Direct)/ Option/ Sub-option opted for in the request for redemption/switch-out of all/specified amount/units, in the absence of clarificatory letter from the investor on the day of the transaction, the AMC/ Registrar reserves the right to process the redemption/switch out request from the Normal Plan or Direct Plan if such redemption request can be processed in totality. In such case, the redemption will first be effected from the Normal Plan.

E.g. If an investor has investment of Rs. 5 lakh in an Normal Plan and Rs. 10 lakh in the Direct Plan and a redemption request is received from him for redemption of Rs. 2 lakh without indicating which Plan the redemption is to be effected from, the AMC/ Registrar will effect the redemption from the Normal Plan. In the same example, if the redemption request was for Rs. 7 lakh, the redemption would be effected from the Direct Plan.

However, in case it is not possible to effect the redemption from any one of the Plans in totality i.e. either from the Normal or from the Direct Plan, such redemption request will be treated as void ab-initio and rejected.

E.g. If the redemption request in the above example is for Rs. 12 lakh, the AMC / Registrar will summarily reject the redemption request.

Where units are held under any one i.e. under Normal or Direct Plan, the redemption will be processed from such Plan.

<p>Minimum balance to be maintained and consequences of non maintenance.</p>	<p>The Fund reserves the right to redeem the entire units lying to the credit of the Unitholder's account if</p> <ul style="list-style-type: none"> after redemption/ switch out, the amount / units remaining to the credit of the Unitholder's account falls below the minimum balance of 500 units; or Rs. 5000/- the redemption /switch out request amount exceeds the balance lying to the credit of the Unitholder. <p>The number of Units so redeemed will be subtracted from the Unitholder's account and a statement to this effect will be issued to the Unitholder.</p> <p>The Unitholders may also request for repurchase of their entire holding and close the account by indicating the same at the appropriate place in the Transaction Slip/Repurchase form.</p>

Perpetual SIP/STP/SWP can be cancelled/discontinued only on the written request of the investor or on account of automatic discontinuation/cancellation in terms of provisions of the facility e.g. failure of 5 continuous installments for a particular monthly SIP date as set out above or sufficient balance being unavailable in out-scheme in case of STP/SWP etc. AMC at its Discretion may also treat the SIP as discontinued if the minimum number of SIP investments as per the minimum Investment criteria are not completed within the stipulated time-frame and may refund the amount after redeeming the outstanding units at current NAV.

It is now clarified that any rejection by the Local Clearing House/ RBI citing 'Account Closed' or 'non existent account' or other similar reasons, will lead to cancellation of the SIP for subsequent periods, after the first such rejection, at the discretion of the AMC.

Combo SIP/Chhota STP

Under Combo SIP investors may Daily Transfer Rs. 1 00/- or in multiples of any amount in full rupee terms to an Opted Scheme, per Business Day, as under.

- a. Out of Normal Investment: An investor against his existing or fresh lump sum investment may opt for this facility through daily STP where a transfer of Rs. 1 00 or any amount thereafter (in full rupee terms) on every Business Day will be effected by the AMC/its Registrar automatically during the opted period or till the out-scheme/ plan/option is able to transfer funds , whichever is earlier made any of the Open-ended Schemes/ Plans/ Options
- b. Out of SIP Investment : An investor may choose to avail of this facility against his existing/fresh SIP Account in any of the open-ended schemes/plan/option where transfer of Rs. 100/- or in multiples of any amount (in full rupee terms) through daily STP would be effected per Business Day. Through this mechanism of regular inflow & outflow, the investor may invest higher amount through SIP on any of the six SIP dates and avail the benefit of daily volatility of market through daily STP with smaller amounts for better risk-adjusted return.

The Investor is required to meet the minimum Investment amount of the Plan within 90 days of the 1st Chhotta STP/ 1st Combo SIP due date.

In case of non – fulfillment of Minimum Investment Criteria of the Scheme/Plan under Daily STP & Combo SIP facility within 90 days of the 1st Chhotta STP/1st Combo SIP date, the AMC may, at its discretion redeem the allotted units at current NAV and remit the proceeds any time after the completion of specified period of 90 days, if not already redeemed by the investor. In an out-going scheme folio, the Investor can also make investment through SIP or through Additional investment to meet the minimum Investment criteria of the Scheme/Plan concerned in order to avoid automatic redemption by the AMC.

Investors may choose any one of the six dates i.e. 1st, 5th, 10th, 15th, 20th or 25th of the month for their STP and SWP transactions. In case of Chhota STP, the choice of daily option is automatic.

Under SWP, the Unit holders shall have an option to predetermine the withdrawal from the scheme. SWP facility is available on 1st, 5th, 10th, 15th, 20th and 25th of the month under monthly and 1st Business Day of the next month for quarterly SWP, subject to the minimum gap of 15 calendar days to start SWP. Subsequent quarterly SWP will fall due after completion of 3 months from the start date. Under SWP, the Unit holders shall have an option to predetermine the withdrawal from the scheme.

Under the SWP facility, investors may choose between

- (a) Fixed Amount Withdrawal and
- (b) Capital Appreciation Withdrawal

Fixed Amount Withdrawal (FAW):

Under this option the investor will have the facility to automate withdrawal of a fixed amount from the scheme at Monthly / Quarterly intervals on the opted due date.

Capital Appreciation Withdrawal (CAW):

Under Capital Appreciation Withdrawal facility, the investors will have the option to indicate automatic withdrawal of capital appreciation at varying time intervals over previous period, on monthly or quarterly basis.

Example: Mr. X has invested Rs. 10,000 in the Scheme and instructs the AMC for CAW withdrawal on monthly basis. If his investment turns to be Rs. 10,100 at the end of first month the appreciated Rs. 100 would be automatically withdrawn from the Scheme. In order to start the STP/ SWP, the investor must have a minimum investment of Rs. 5,000/- or above or as per the minimum investment subscription amount (whichever is higher) applicable for the scheme/plan/option on the 1st opted STP/SWP date . However, the investor is not required to maintain the same balance after processing the 1st STP/SWP installment. The last installment may be equivalent to or less than the opted installment amount.

Systematic Transfer Plan (STP) - The minimum amount for transfer and available dates for STP are as under :

@ In case 5 out of the first 6 installments in monthly / weekly / fortnightly and first two in case of quarterly option are effected, the STP's will be treated as valid and there will be no revertal and reprocess with recovery of load.

* Or In the event of failure of two consecutive STP installments, the STP request will stand terminated and the investor will have to make a fresh application for availing of this facility subject to the current term & conditions applicable for fresh STP cases. This condition will, however, not be applicable in case of CAW where the condition of minimum STP instalments could not be met due to the capital appreciation amount being less than Rs. 100 in case of monthly option and Rs. 300 in case of quarterly option.

An investor will have to opt for minimum 6 installments or in multiples of 6 installments i.e 6,12,18,24,30 installments respectively for his STP requests in case of weekly/ fortnightly/monthly plan and for minimum of 2 installments or in multiples of 2 installments in case he opts for the quarterly plan.

It is clarified that these 6 installments pertain to a given application for a specified opted date, for a specific option/ sub-option Separate application is required for each option/sub-option for respective due date(s).

In the event of not meeting any one or more of the above mentioned criteria, the SIP will stand terminated and the investor will be required to make a fresh SIP applicaton if he is desirous of availing this facility in future also. The fresh application will be subject to the current terms and conditions of the scheme/plan/option.

SWP facility is available on 1st, 5th, 15th and 25th of the month under monthly and 1st Business Day of the next month for quarterly SWP, subject to the minimum gap of 15 calendar days to start SWP . Subsequent quarterly SWP will fall due after completion of 3 months from the start date.

In case, it is not possible for the AMC/Registrar to start the STP/SWP from the opted start date due to the insufficiency of time given by the investor , the AMC/Registrar will automatically process the first STP/SWP on the opted date from the next month after the opted starting month e.g. In case investor applies for STP/SWP on 18th Jan 2012 for effecting 1st STP/SWP from 1st February, 2012, AMC/Registrar may process the same from 1st of March, 2012. In such a case, the ending period will be extended automatically by another month.

Minimum amount for withdrawal under SWP is fixed as under :

- Fixed Amount Withdrawal (FAW) : Rs.1,000/- per month or Rs.3,000/- per quarter and further in multiples of Re.1 /- thereafter.
- Capital Appreciation Withdrawal(CAW) Entire Capital Appreciation over the previous due date to current due date subject to a minimum of Rs. 100 under monthly option and Rs. 300/- under quarterly option

In case, the opted STP/SWP day falls on a non-business day, the next business day shall be deemed to be the transaction day for that month or quarter as the case may be.

Each installment under STP/SWP cannot exceed the original investment amount divided by the number of installment chosen subject to the fulfillment of minimum STP/SWP criteria for respective frequency. In case of multiple STP/SWP dates, the total number of installments will be taken into account while fixing up the maximum installment amount.

Discontinuation/Termination of STP/SWP

For discontinuation of STP/ SWP, the unitholder is required to intimate the AMC/ Registrar at least 15 Calendar Days prior to the next installment for the respective due date. On such request, STP/ SWP will be terminated and the transfer/ withdrawal instructions given by the investor will be treated as cancelled.

Further, in case of non-fulfilment of any other terms and conditions, the STP/SWP will be treated as cancelled/discontinued/terminated as per the discretion of the AMC.

An investor cannot simultaneously participate in an SIP and SWP in the same scheme. This facility is not available for investments under lock-in or encumbrances. All withdrawals under SWP including FAW & CAW options shall be considered as redemption with no further specific request or documentation requiring to be submitted by the unit holders. On the respective date of processing the SWP request, a revised account statement showing the amount withdrawn under SWP together with balance units (post accounting the SWP) in their account shall be mailed to the unit holders.

All operational instructions of SWP including FAW & CAW options shall be in Rupees and not in Units.

If the balance falls below the prescribed minimum balance (based on applicable NAV) due to redemptions or SWP, the AMC reserves the right to discontinue the SWP facility and / or close an investor's account if the investor fails to invest sufficient funds to bring the value of the account to the prescribed minimum (based on applicable NAV) after a written intimation in this regard is sent to the Unit holder.

In case of SIP/ STP transactions, the minimum number of mandatory installments pertain to a given application for a specified opted date/ specific option/ specific sub-option. Separate application is required for each option/ sub-option for respective due date(s).

In the event of not meeting any one or more of the above mentioned criteria, the SIP will stand terminated and the investor will be required to make a fresh SIP application if he is desirous of availing this facility in future also. The fresh application will be subject to the current terms and conditions of the scheme/plan/option.

Investments through systematic routes in case of Direct Plan:

(a) In case of Systematic Investment Plan ("SIP") / Systematic Transfer Plan ("STP") etc. registered prior to the Effective Date without any distributor code under the Normal Plan, installments falling on or after the Effective Date will automatically be processed under the Direct Plan only.

(b) Investors who had registered for SIP facility prior to the Effective Date with distributor code shall continue under the Existing Plan. However if the investor wishes that their future installments be invested into the Direct Plan, he shall make a written request to the Mutual Fund in this behalf. The Mutual Fund will take at least 15 Business days to process such requests. Intervening installments will continue in the Normal Plan.

In case of (a) and (b) above, the terms and conditions of the existing registered enrolment such as tenure , amount of the SIP etc. shall continue to apply.

(c) In case of Systematic Transfer Facilities which were registered with a Distributor Code under the Normal Plan prior to the Effective Date, the future installments under the said Facilities shall continue as under the Normal Plan

In case such investors wish to invest under the Direct Plan through these facilities, they would have to cancel their existing enrolments and register afresh for such facilities.

Default Option for all SIP/STP-out/SWP

In case, the Investor fails to mention the start date or end date under the SIP/STP-out/SWP, the first of the subsequent month , after completing 30 days from the date of registration, will be considered as the default SIP/STP-out/SWP date and the same would be treated to have been opted on perpetual basis.

Switching Options

Unitholders under the Scheme have the option to switch part or all of their unit holdings in the Scheme to another Scheme established by the Fund, or within the Scheme from one Plan to another, which is available for investment at that time. This option will be useful to Unitholders who wish to alter the allocation of their investment among the Scheme/Plan(s)/Options of the Fund in order to meet their changed investment needs.

The switch will be effected by way of a redemption of Units from the Plan/Option and a reinvestment of the redemption proceeds in the opted Plan/Option of the other Scheme and accordingly, to be effective, the switch must comply with the redemption rules of the Scheme and the issue rules of the other scheme (for e.g. as to the minimum number of Units that may be redeemed or issued, exit/entry load, etc). The price at which the Units will be switched out of the Plan will be based on the Repurchase Price, and the proceeds will be invested in the opted Plan/ Option of the other Scheme at the prevailing sale price for units in that scheme/plan/option. The switch - out from one scheme to another scheme (i.e. requiring change in portfolio) will be effective only after the switch - out scheme has received the funds in the scheme. Accordingly, the applicability of NAV will be dependant on the SEBI guidelines

Investors will not have to bear exit load for inter and intra equity switches except in case of (i) switches by SIP/STP investors within 24 months (for cases registered from 4.1.2008 up to 2.10.2008) and within 12 months (for cases registered upto 3.1.2008) of respective SIP/STP installments (ii) switches by STP investors (for cases registered from 3.10.2008) within 24 months of respective STP installments (iii) switches by SIP investors (for cases registered from 3.10.2008) within 12 months of respective SIP installments (iv) switches to/from JM Arbitrage Fund to any equity schemes.

Subject to necessary approvals (if any) from the Regulatory authorities and any other approval as applicable, tax deduction at source, if any, will be effected at the appropriate rate in case of a switching by NRIs/FIIs and the balance amount would be utilized to exchange units to the other Scheme.

In case of Direct Plan:

- (a) Investors wishing to transfer their accumulated unit balance held under Normal Plan (through lumpsum / systematic investments made with or without Distributor code) to Direct Plan will have to switch /redeem their investments (subject to applicable Exit Load, if any) and apply under Direct Plan.
- (b) Investors who have invested without Distributor code and have opted for Dividend Reinvestment facility under Normal Plan may note that the dividend will continue to be reinvested in the Normal Plan only.
