## **II. INTRODUCTION**

### **A. Risk Factors**

#### **Standard Risk Factors:**

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak Consumption Fund is only name of the scheme and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of any of the scheme beyond the initial contribution of Rs.2,50,000 made by it towards setting up the Mutual Fund.
- The scheme under this scheme information document is not a guaranteed or assured return scheme.

#### **Scheme Specific Risk Factors**

- The scheme will be largely affected by the risks associated with consumption and consumption related stocks. The Scheme will mainly invest in consumption and consumption related companies thereby limiting its exposure to Consumption Theme. This will limit the capability of the Scheme to invest in other themes.
- The scheme will be subjected to concentration risk as the fund is mandated to invest in particular theme. This may result in the Portfolio NAV to be more volatile as compared to a diversified portfolio.
- Accordingly, the scheme may also face a relatively higher liquidity risk owing to larger concentrations in their exposures in the event of any significant redemptions occurring in the scheme.
- Owing to high concentration risk for thematic scheme, risk of capital loss is relatively high.
- Also, as with all equity investing, there is the risk that companies in consumption theme will not achieve its expected earnings results, or that an unexpected change in the market or within the company may occur, both of which may adversely affect investment results. Thus investing in a theme specific fund could involve potentially greater volatility and risk.

#### **Risks associated with Capital Markets or Equity Markets (i.e. Markets in which Equity Shares or Equity oriented instruments are issued and traded)**

- **Price fluctuations and Volatility:**  
Mutual Funds, like securities investments, are subject to market and other risks and there can be neither a guarantee against loss resulting from an investment in the Scheme nor any assurance that the objective of the Scheme will be achieved. The NAV of the Units issued under the Scheme can go up or down because of various factors that affect the capital market in general,

such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets. Pressure on the exchange rate of the Rupee may also affect security prices.

- **Concentration / Sector Risk:**  
When a Mutual Fund Scheme, by mandate, restricts its investments only to a particular sector; there arises a risk called concentration risk. If the sector, for any reason, fails to perform, the portfolio value will plummet and the Investment Manager will not be able to diversify the investment in any other sector. Investments under this scheme will be in a portfolio of diversified equity or equity related stocks spanning across a few selected sectors. Hence the concentration risks could be high.
- **Liquidity Risks:**  
Liquidity in Equity investments may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by KMMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information.
- **Potential Loss associated with Derivative Trading pertaining to Equity Markets:**
  - a) In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.
  - b) The risk (loss) for an options buyer is limited to the premium paid, while the risk (loss) of an options writer is unlimited, the latter's gains being limited to the premiums earned. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the exercise price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price.
- **Potential Loss associated with Securities Lending:-**  
In the case of securities lending the additional risk is that there can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

**Risks associated with Debt / Money Markets (i.e. Markets in which Interest bearing Securities or Discounted Instruments are traded)**

**i. Credit Risk:**

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

## **ii. Price-Risk or Interest-Rate Risk:**

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

## **iii. Risk of Rating Migration:**

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.50% p.a., its market value would drop to Rs. 98.76 (i.e. 1.24%). If the security is up-graded to AAA category which commands a market yield of, say, 9.60% p.a. its market value would increase to Rs103.48 (i.e. by 3.48%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

<b>Rating</b>	<b>Yield (% p.a.)</b>	<b>Market Value (Rs.)</b>
AA	11.00	100.00
If upgraded to AAA	9.60	103.48
If downgraded to A	11.50	98.76

## **iv. Basis Risk:**

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

## **v. Spread Risk:**

In a floating rate security, the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

#### **vi. Reinvestment Risk:**

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

#### **vii. Liquidity Risk:**

The corporate debt market is relatively illiquid vis-a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

#### **Risk Associated with Investment in Derivatives Market**

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investment.

The Scheme may use derivative instruments such as index futures, stock futures, index options, stock options, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations, as would be commensurate with the investment objective of the Scheme

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. There are certain risks inherent in aforesaid derivatives instruments. These are:

- a) **Basis Risk** – This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset.
- b) **Limitations on upside:** Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- c) **Liquidity risk** pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- d) In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.

- e) The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- f) Credit Risk –With the phased implementation of physical settlement of stocks in equity derivative segment, though there is an element of risk of stock / funds not being received, the same is mitigated due to settlement guarantee similar to equity cash market segment.
- g) Interest Rate Risk – interest rate is one of the variables while valuing derivatives such as futures & options. For example, with everything remaining constant, when interest rates increase, the price of Call option would increase. Thus, fluctuations in interest rates would result in volatility in the valuation of derivatives.
- h) Model Risk - A variety of models can be used to value options. Hence, the risk to the scheme is that the fund manager buys a particular option using a particular valuation model (on the basis of which the option seems to be fairly priced or cheap) but the market is valuing it using another valuation model and according to which the option may be expensive.
- i) The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter's gain being limited to the premiums earned. However, in the case of the Fund, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the strike price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the strike price.

**Risks associated with Covered Call Strategy:**

- The risk associated with a covered call is the loss of upside, i.e. If the underlying price rises above the strike, the short call loses its value as much as the underlying stock gains
- The Scheme may write covered call option only in case it has adequate number of underlying equity shares as per regulatory requirement. This means to set aside a portion of investment in underlying equity shares. In case of change in view, the scheme may not be able to sell the underlying equity shares immediately. If covered call options are sold to the maximum extent allowed by regulatory authority.
- The covered call options need to be unwound before the stock positions can be liquidated. This may lead to a loss of opportunity, or can cause exit issues if the strike price at which the call option contracts have been written become illiquid. Hence, the scheme may not be able to sell the underlying equity shares, which can lead to temporary illiquidity of the underlying equity shares and result in loss of opportunity.

**Risks associated with Securitised Debt:**

The Scheme may from time to time invest in domestic securitised debt, for instance, in asset backed securities (ABS) or mortgage backed securities (MBS). Typically, investments in securitised debt carry credit risk (where credit losses in the underlying pool exceed credit enhancement provided, (if any) and the reinvestment risk (which is higher as compared to the normal corporate or sovereign debt). The underlying assets in securitised debt are receivables arising from automobile loans, personal loans, loans against consumer durables, loans backed by mortgage of residential / commercial properties, underlying single loans etc.

ABS/MBS instruments reflect the proportionate undivided beneficial interest in the pool of loans and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. Investments in securitised debt is largely guided by following factors:

- Attractive yields i.e. where securitised papers offer better yields as compared to the other debt papers and also considering the risk profile of the securitised papers.
- Diversification of the portfolio
- Better performance

Broadly following types of loans are securitised:

**a) Auto Loans**

The underlying assets (cars etc.) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed.

These loans are also subject to model risk. i.e. if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclical nature in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

**b) Housing Loans**

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

**c) Consumer Durable Loans**

- The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.
- The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

**d) Personal Loans**

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money.

Further, all the above categories of loans have the following common risks:

- All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.
- In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record.
- In retail loans, the risks due to frauds are high.

**e) Single Loan PTC**

A single loan PTC is a securitization transaction in which a loan given by an originator (Bank/ NBFC/ FI etc.) to a single entity (obligor) is converted into pass through certificates and sold to investors. The transaction involves the assignment of the loan and the underlying receivables by the originator to a

trust, which funds the purchase by issuing PTCs to investors at the discounted value of the receivables. The PTCs are rated by a rating agency, which is based on the financial strength of the obligor alone, as the PTCs have no recourse to the originator.

The advantage of a single loan PTC is that the rating represents the credit risk of a single entity (the obligor) and is hence easy to understand and track over the tenure of the PTC. The primary risk is that of all securitized instruments, which are not traded as often in the secondary market and hence carry an illiquidity risk. The structure involves an assignment of the loan by the originator to the trustee who then has no interest in monitoring the credit quality of the originator. The originator that is most often a bank is in the best position to monitor the credit quality of the originator. The investor then has to rely on an external rating agency to monitor the PTC. Since the AMC relies on the documentation provided by the originator, there is a risk to the extent of the underlying documentation between the seller and underlying borrower.

#### **Risk associated with investment in Government securities and Tri-Party Repo on Government securities or treasury bills:**

The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills or trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.

The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.

Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).

CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

#### **Risk envisaged and mitigation measures for repo transactions:**

Credit risks could arise if the counterparty does not return the security as contracted or interest received by the counter party on due date. This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Additionally, appropriate haircuts are applied on the market value of the underlying securities based on the tenor and illiquidity of the underlying security. Also operational risks are lower as such trades are settled on a DVP basis.

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to us. Thus the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments.

**Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities:**

The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments.

- Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms such as guarantee, shortfall undertaking, letter of comfort, pledge of shares listed on stock exchanges etc. from the issuers, promoters or another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating.
- SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of loan receivables, securities backed by trade receivables, credit card receivables etc. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer.
- Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is low as compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold. Where equity shares are provided as collateral there is the risk of sharp price volatility of underlying securities which may lead to erosion in value of collateral as also low liquidity of the underlying shares which may affect the ability of the fund to enforce collateral and recover capital and interest obligations.
- Credit Risk: The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

**Risk factors associated with REITS/InvITs:**

- **Market Risk** – Units of REITS & InvITs are subject to market and other risks. The value of these units can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets
- **Liquidity Risk** - Liquidity in units of REITs & InvITs may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by Kotak Mahindra Mutual Fund for redemption of Units, which could be significant in the event of receipt

of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information. REITs and InvITs currently only have a nascent primary market. As such, in absence of the secondary market, the invested units cannot be redeemed except where the issuer is offering a buyback or delisting the units.

- **Re-investment Risk** – Investments in REITs & InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or Income Distribution cum capital withdrawal (IDCW) pay-outs, etc. Consequently, the proceeds may get invested at a lower rate
- **Performance Risk** - InvITs and REITS carry a performance risk by way of repayment of principal or of interest by the borrower. REITs & InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.

The above are some of the common risks associated with investments in REITs & InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital.

### **Risk Factors Associated with investing in Foreign Securities:**

Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances. However, in case the overall industry limit or such other limit as prescribed by SEBI has been breached, the Scheme may not in a position to invest in foreign securities temporarily.

To manage risks associated with foreign currency and interest rate exposure, the Scheme may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated under the Regulations or by the RBI from time to time.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated under the Regulations or by RBI and provided such investments do not result in expenses to the scheme in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing.

The Mutual Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory costs.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

### **Currency Risk:**

Investments in overseas securities/mutual fund units are subject to currency risk. Returns to investors are the result of a combination of returns from investments and from movements in exchange rates. For example, if the Rupee appreciates vis-à-vis the US \$, the extent of appreciation will lead to reduction in the yield to the investor. However, if the Rupee appreciates against the US \$ by an amount in excess of the interest earned on the investment, the returns can even be negative. Again, in case the Rupee depreciates vis-à-vis the US \$,

the extent of depreciation will lead to a corresponding increase in the yield to the investor. Going forward, the Rupee may depreciate (lose value) or appreciate (increase value) against the currencies of the countries where the Scheme will invest.

#### **Exhaustion of overseas limit Risk**

The Scheme can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

As and when the investment limits at Mutual Fund level/Industry level are exhausted or nearing exhaustion, the scheme may temporarily suspend deployment of funds in overseas funds/securities.

#### **Risk associated with Securities Lending:**

In the case of securities lending the additional risk is that there can be temporary illiquidity of the securities that are lent out and the Scheme may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

#### **Risks associated with Short Selling:**

Short-selling is the sale of shares or securities that the seller does not own at the time of trading. Instead, he borrows it from someone who already owns it. Later, the short seller buys back the stock/security he shorted and returns the stock/security to the lender to close out the loan. The security being short sold might be illiquid or become illiquid and covering of the security might occur at a much higher price level than anticipated, leading to losses. Purchasing a security entails the risk of the security price going down. Short selling is subject to risks related to fluctuations in market price, and settlement/liquidity risks. If required by the regulations, short selling may entail margin money to be deposited with the clearing house and daily mark to market of the prices and margins. This may impact fund pricing and may induce liquidity risks if the fund is not able to provide adequate margins to the clearing house. Failure to meet margin requirements may result in penalties being imposed by the exchanges and clearing house

#### **Risks associated with segregated portfolio**

- Investor holding units of segregated portfolio may not be able to liquidate their holding till the time realisable value is recovered.
- Security comprising of segregated portfolio may realise lower value or may realise zero value.

Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

#### **Risks associated with Units of Mutual Fund Schemes**

Investment in units of Mutual Fund scheme involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the underlying securities in which the mutual fund scheme invests fluctuates, the value of units of mutual fund scheme may go up or down. The value of underlying securities may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee. Investment in units of mutual fund scheme is also exposed to risk of suspension of subscriptions / redemptions of the units, change in fundamental attributes etc. Since the Scheme may invest in schemes of Mutual Funds, scheme specific risk factors of each such mutual fund schemes will be applicable to the Scheme portfolio.

**Risk Control/Risk Mitigation:**

Type of Risks	Measures/ Strategies to control risks
<b>Equity Markets/ Equity Oriented Instruments</b>	<p><b>Investment strategy</b> The scheme will comply with the prescribed SEBI limits on exposure. Risk is monitored and necessary action would be taken on the portfolio, if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same.</p> <p><b>Portfolio volatility &amp; concentration</b> The overall volatility of the portfolio would be maintained in line with the investment objective of the scheme. Volatility is inherent to an equity scheme. The scheme may use derivatives to limit the portfolio volatility. The Scheme will try and mitigate this risk by investing in sufficiently large number of companies within the Consumption space, so as to maintain optimum diversification and keep stock specific concentration risk relatively low.</p> <p><b>Liquidity</b> The scheme predominantly invests across market capitalisation which are actively traded and thereby liquid. The fund manager may also keep some portion of the portfolio in debt and money market instruments and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/money market instruments that are invested by the fund will have a short term duration.</p>
<b>Debt and Money Market instruments</b>	<ul style="list-style-type: none"> <li>• <b>Credit Risk:</b> Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken.</li> <li>• <b>Price-Risk or Interest-Rate Risk:</b> The Scheme may primarily invest the debt portion of the portfolio in short term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities.</li> <li>• <b>Risk of Rating Migration:</b> The Scheme may primarily invest the debt portion of the portfolio in short-term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities</li> <li>• <b>Basis Risk:</b> The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments.</li> <li>• <b>Spread Risk:</b> The Scheme may primarily invest the debt portion of the portfolio in short-term debt &amp; money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities</li> <li>• <b>Reinvestment Risk:</b> The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value.</li> </ul>

	<ul style="list-style-type: none"> <li>Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt &amp; money market instruments, units of Liquid and Overnight schemes.</li> </ul>
<b>Derivatives</b>	The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Exchange traded derivatives are listed and traded on stock exchanges. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
<b>Securities Lending</b>	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs).” The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Scheme may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.
<b>Currency</b>	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
<b>Repo Transactions</b>	This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis. In the event the counterparty is unable to pay back the money to the scheme as contracted on maturity, the scheme may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the counterparty
<b>Securitized Debt</b>	In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained
<b>Segregated Portfolio</b>	In such an eventuality it will be AMC’s endeavor to realise the segregated holding in the best interest of the investor at the earliest.
<b>REITs and InvITS</b>	The Scheme will comply with the prescribed SEBI limits on exposure. The scheme will endeavour to invest in liquid REITs & InvITs.
<b>Structured Obligation (SO) &amp; Credit Enhancement (CE) rated securities</b>	Scheme wise investments as prescribed by the regulations limits the exposure to such securities. Additionally, covenants of such structured papers are reviewed periodically for adequate maintenance of covers as prescribed in the Information Memorandum of such papers.
<b>Government securities and Triparty repo on Government securities or treasury bills:</b>	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
<b>Units of mutual fund schemes</b>	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidity normally within T+2

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mentioned above are based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same.

## **B. Requirement of Minimum Investors in the Scheme**

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. However, if such limit is breached during the NFO of the Scheme, the Mutual Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15<sup>th</sup> day of the notice period. The Mutual Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

## **C. Special Considerations**

- i. Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.
- ii. Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- iii. Kotak Mahindra Mutual Fund/AMC has not authorised any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of units under the Scheme. Prospective investors are advised not to rely upon any information or representations not incorporated in the SAI and SID as the same have not been authorised by

the Mutual Fund or the AMC. Any purchase or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are not consistent with the information contained herein shall be solely at the risk of the investor. The investor is requested to check the credentials of the individual, firm or other entity he/she is entrusting his/her application form and payment to, for any transaction with the Mutual Fund. The Mutual Fund shall not be responsible for any acts done by the intermediaries representing or purportedly representing such investor.

- iv. If the units are held by any person in breach of the Regulations, law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations, the Mutual Fund may mandatorily redeem all the units of any Unit holder where the units are held by a Unit holder in breach of the same. The Trustee may further mandatorily redeem units of any Unit holder in the event it is found that the Unit holder has submitted information either in the application or otherwise that is false, misleading or incomplete.
- v. In terms of the Prevention of Money Laundering Act, 2002 ("PMLA") the rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including mutual funds, are required to formulate and implement a client identification programme, and to verify and maintain the record of identity and address(es) of investors.
- vi. If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unit holder/any other person.
- The AMC and/ or its Registrars & Transfer Agent (RTA) reserve the right to disclose/share Unit holder's details of folio(s) and transaction details thereunder with the following third parties: a) RTA, Banks and/or authorised external third parties who are involved in transaction processing, dispatching etc., of the Unitholder's investment in the Scheme; b) Distributors or sub-brokers through whom the applications are received for the Scheme; c) Any other organizations for compliance with any legal or regulatory requirements or to verify the identity of the Unitholders for complying with anti-money laundering requirements.

#Money Market instruments include commercial papers, commercial bills, treasury bills, Government securities having an unexpired maturity up to one year, call or notice money, certificate of deposit, usance bills, and any other like instruments as specified by the Reserve Bank of India from time to time;

^In accordance with clause 4 of Seventh Schedule of SEBI (Mutual Funds) Regulations 1996 scheme may invest in the units of Mutual Fund schemes of Kotak Mahindra Mutual Fund or any other Mutual Fund.

Pursuant to Para 7.5, 7.6 and 12.25 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 as may be amended from time to time, the scheme may also use various derivative and hedging products from time to time in a manner permitted by SEBI to reduce the risk of the portfolio as and when the fund manager is of the view that it is in the best interest of the unit holders. The scheme may invest upto 50% of the equity and equity related instruments in equity derivatives out of which non-hedge portion will not exceed 25%.

As per Para 12.24 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

Pursuant to para 12.25.3 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure. Cash Equivalent shall consist of the following securities having residual maturity of less than 91 days:

- a) Government Securities;
- b) T-Bills; and
- c) Repo on Government securities.

Pursuant to Para 12.18 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, SEBI Circular no. SEBI/HO/IMD/IMD PoD-2/P/CIR/ dated June 08, 2023 and SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/87 dated June 13, 2023 and various iother circulars issued from time to time, the scheme may participate in the corporate bond repo transactions. The gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10% of the net assets of the concerned scheme.

Investment in debt instruments having structured obligations / credit enhancements as per para 12.3 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.:

The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme:-

- Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and –
- Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above

investment grade

The Scheme shall not invest in:

- Credit Default Swaps;
- Debt instruments with special features as referred to in SEBI circular dated March 10, 2021.
- Fixed Income Derivatives

As per para 12.11 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as amended from time to time, the Trustee may permit the Fund to engage in securities lending and borrowing. At present, since only lending is permitted, the fund may temporarily lend securities held with the Custodian to reputed counter-parties or on the exchange, for a fee, subject to prudent limits and controls for enhancing returns. The Scheme will lend securities subject to a maximum of 20%, in aggregate, of the net assets of the Scheme and 5% of the net assets of the Scheme in the case of a single intermediary.

The Scheme may invest in overseas securities including units issued by overseas Mutual Funds or Unit Trusts registered with overseas regulator as may be permissible and described in para 12.19 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 as may be amended from time to time, within the overall applicable limits.

The Scheme can make overseas investments subject to a maximum of US \$ 1 billion per Mutual Fund, within the overall industry limit of US \$ 7 billion or such limits as may be prescribed by SEBI from time to time. The Scheme therefore may or may not be able to utilise the limit of USD 1 billion due to the USD 7 billion limit being exhausted by other Mutual Funds. Further, the scheme can make investments in overseas Exchange Traded Fund (ETF(s)) subject to a maximum of US \$ 300 million per Mutual Fund, within the overall industry limit of US \$ 1 billion.

During the NFO, the intended amount for investment in overseas securities is US \$ 5 Million and the intended amount for investment in overseas ETFs is US \$ 1 Million.

Apart from the investment restrictions prescribed under SEBI (MF) Regulations, the Fund follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc, within the mentioned restrictions, and these are subject to review from time to time.

#### **Portfolio Rebalancing:**

As per para 2.9 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, in the event of any deviation from mandated asset allocation mentioned above, due to passive breaches, rebalancing period will be Thirty (30) business days. In case the portfolio is not rebalanced within Thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desired, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall not launch any new scheme till the time the portfolio is rebalanced and also not levy exit load, if any on the investors exiting the Scheme. However, at all times the portfolio will adhere to the overall investment objective of the Scheme.

**Short Term Defensive Consideration**

As per Para 1.14.1.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. In case of any deviation, the portfolio shall be rebalanced within 30 calendar days.

**D. Where will the scheme invest?**

The Scheme shall invest in the following securities as per the limits specified in the asset allocation table of Scheme, subject to SEBI (MF) Regulations.

**E. What is the investment strategy?**

The scheme aims to generate long-term capital appreciation from a portfolio that is invested predominantly in equity and equity related securities of companies engaged in consumption and consumption related activities

Indicative list of sectors/industries falling under consumption and consumption related activities are as follows:

1. Automobile including auto components companies,
2. Construction Materials
3. Consumer Durables
4. Consumer Services
5. Fast Moving Consumer Goods
6. Financial Services
7. Forest Materials
8. Healthcare
9. Media, Entertainment & Publication
10. Power
11. Realty
12. Telecommunication
13. Textiles

The Fund Manager may add other sectors as may be added in Nifty India Consumption Index (TRI) from time to time.

The Scheme may also invest a certain portion of its corpus in debt and money market securities. Investment in debt securities will be guided by credit quality, liquidity, interest rates and their outlook.

The scheme may use Derivatives traded on recognized stock exchanges for the purpose of hedging, portfolio rebalancing and other purposes as may be permitted by SEBI.

Although the scheme will predominantly invest in stocks as per the consumption theme, it retains the flexibility to take some exposure beyond the theme based on the asset allocation pattern of the scheme.

The scheme may invest in Debt & Money Market Instruments primarily for Liquidity purposes as well as for the purpose of meeting redemptions.

The scheme may invest in overseas securities & mutual fund units for the purpose of diversification in terms of markets and currency. However, given the theme of the scheme, such exposure will be limited to a maximum of 20% of Net assets.

The Scheme may use SLBM for earning additional income for the scheme with a lesser degree of risk.

Scheme may invest in the units of Mutual Fund schemes of Kotak Mahindra Mutual Fund or any other Mutual Funds in terms of the prevailing SEBI (MF) Regulations.

The scheme may invest in units of REIT and INviTs at an opportune time to take exposure in real estate or infrastructure assets.

**Portfolio Turnover:** Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

Portfolio Turnover Ratio: Not Applicable (Since the scheme is a new fund to be launched, the said ratio is Not Applicable)

**Participation of scheme of Kotak Mahindra Mutual Fund in repo of corporate debt securities:**

In accordance with para 12.18 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, SEBI Circular no. SEBI/HO/IMD/IMD PoD-2/P/CIR/ dated June 08, 2023 and SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/87 dated June 13, 2023 and various circulars issued from time to time, schemes of Kotak Mahindra Mutual Fund shall participate in repo transactions on corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) in accordance with directions issued by RBI and SEBI from time to time. Currently the applicable guidelines are as under:

- The gross exposure of any mutual fund scheme to repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) shall not be more than 10 % of the net assets of the concerned scheme.
- The cumulative gross exposure through repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) along with equity, debt and derivatives, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the concerned scheme.
- Mutual funds shall participate in repo transactions on following Corporate Debt securities;
  - listed AA and above rated corporate debt securities and
  - Commercial Papers(CPs) and Certificate of Deposits(CDs).
- In terms of Regulation 44 (2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
- Mutual funds shall ensure compliance with the Seventh Schedule of the Mutual Funds Regulations about restrictions on investments, wherever applicable, with respect to repo transactions in corporate debt securities including Commercial Papers(CPs) and Certificate of Deposits(CDs). However, for transactions where settlement is guaranteed by a Clearing Corporation, the exposure shall not be considered for the purpose of determination of investment limits for single issuer, group issuer and sector level limits.

**The parameters for investment in repos of corporate debt securities as approved by the Board of AMC and Trustee Company are as under:****(i) Category of counterparty to be considered for making investment:**

All entities (including clearing corporations) eligible for transacting in corporate bond repos as defined by SEBI and RBI shall be considered for repo transactions.

**(ii) Credit rating of counterparty to be considered for making investment**

The schemes shall participate in corporate bond repo transactions with counterparties having a minimum investment grade rating and is approved by the Investment Committee on a case-to-case basis. In case there is no rating available, the Investment Committee will decide the rating of the counterparty, and report the same to the Board from time to time.

The requirement for credit rating of the counterparty will not be applicable for transactions where settlement is guaranteed by a Clearing Corporation,

**(iii) Tenor of Repo and collateral**

As a repo seller, the schemes will borrow cash for a period not exceeding 6 months or as per extant regulations. As a repo buyer, the Schemes are allowed to undertake the transactions for maximum maturity upto one year or such other terms as may be approved by the Investment Committee. There shall be no restriction / limitation on the tenor of collateral.

**(iv) Applicable haircuts**

RBI in its circular dated July 24, 2018 has prescribed the haircut to be applied for repo transactions as follows:

Haircut/margins will be decided either by the clearing house or may be bilaterally agreed upon, in terms of the documentation governing repo transactions, subject to the following stipulations:

- i. Listed corporate bonds and debentures shall carry a minimum haircut of 2% of market value.
- ii. CPs and CDs shall carry a minimum haircut of 1.5% of market value.
- iii. Securities issued by a local authority shall carry a minimum haircut of 2% of market value.

However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the prevailing liquidity situation in the market.

**Risk envisaged and mitigation measures for repo transactions:**

Credit risks could arise if the counterparty does not return the security as contracted or interest received by the counter party on due date. This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Additionally, appropriate haircuts are applied on the market value of the underlying securities based on the tenor and illiquidity of the underlying security. Also operational risks are lower as such trades are settled on a DVP basis.

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to us. Thus the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments.

**Investments in securitized debt instruments**

**How the risk profile of securitized debt fits into the risk appetite of the scheme:**

The scheme investment pattern permits investments in debt and money market instruments with extended maturities. Under this the investments could be in the following form of issuances, viz. CPs, CDs, Securitised debt, etc. i.e for the same acceptable levels of risks there could be multiple instruments available to a Fund Manager. Based on the credit assessment of the issuers the Fund Manager may choose to invest in securitized debt.

Our evaluation process for investment in securitized debt is similar to the approach followed for other types of instruments including money market and bonds. We lay emphasis on credit, liquidity and duration risk while evaluating every prospective investment, keeping in mind the investment objectives of the particular scheme.

**Policy relating to originators based on nature of originator, track record, NPAs, losses in earlier securitized debt etc:**

The Fund Manager shall do a comprehensive credit assessment of the structure before investment. This includes originator's credit origination standards, track record on asset quality, more specifically its track record in respect the asset class that is being securitized and also the performance of the pools securitised by the originator in the past. No investments will be made in instruments rated below certain grades as prescribed by the investment committee or in unrated instruments. Prior approval of Trustee will be taken, in case of any investments in unrated instruments.

The securitised paper may pertain to a single asset class e.g., car loans or commercial vehicle loans or a combination of different asset classes i.e. car loans, two wheeler loans and commercial vehicle loans. Investment focus is towards diversification in the asset pool in terms of geography, underlying collateral. Although there is no specific guidelines with respect minimum period for which the originator had held the loans in its books), appropriateness of the seasoning (the period for which the

originator has held loans on its books) and also the loan to value and instalment to income profile of the pool are important parameters for making investment decision.

In case of single loan securitization, the originator merely transfers the loan existing in his book by way of a single loan sell down. The obligation to repay and service the debt remains with the underlying obligor and hence, it is the obligor whose standalone business and financial risk profile is evaluated. Therefore, the credit rating of a single loan structure mirrors the credit rating of the obligor.

For pool securitization, where the debt repayment is dependent on the underlying pool of borrowers, it is important to evaluate the characteristics of the pool including the type of loan, loan to value ratio, ticket size of loan, geographic distribution etc. and the track record of the originator in terms of volume of securitization activity, historical losses seen in similar pools, stability in cash flow servicing and utilization level of credit enhancement.

### **Risk Mitigation strategies for investments with each kind of originator:**

Apart from the above, risk assessment process includes examination of the credit enhancements offered under the present PTC structure, utilization of credit enhancement in the previous securitization structures of the originator and the trends in credit enhancement utilization of securitization transactions of similar asset classes of other originators. The size & reach of originators, its infrastructure & follow-up mechanism, quality of MIS & the collection process are also considered for each originator.

The nature of the instrument, underlying risks, underlying risk migration perceptions would decide the tenure of the said investments.

There is clear cut segregation of duties and responsibilities with respect to Investment Function and Sales function. Risk assessment and monitoring of investment in Securities Debt is done by a team comprising of credit analyst, fund manager and Head of Fixed Income. The Investment committee also looks into a first time investment in credit, apart from sanctioning overall limits for the same. Investment Decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objective.

Originator risk can be evaluated and mitigated on the basis of –

- (a) Market position and size of the originator and expertise/niche in financing a particular type of asset.
- (b) Systems and processes established by the originator to address operational risk relating to disbursement, collection and recovery of loans.
- (c) Extent of data disclosed by the originator for the current pool as well as past pools which showcases the data mining capability of the originator.
- (d) Credit enhancement provided based on the pool characteristics, historical performance of past pools and the base case losses assumed by the credit agency.

### **The level of diversification with respect to the underlying assets, and risk mitigation measures for less diversified investments:**

Framework that will be applied while evaluating investment decision relating to a pool securitization transaction:

Characteristics/ Type of Pool	Mortgage Loan	CV & CE	Cars	Two Wheelers	Micro Finance	Perso nal Loans	Single loan sell down
Average maturity	36m-72m	12m-	12m-	12m-24m	3m-18m	12m-	12m-36m

(in months)		36m	36m			24m	
Collateral margin (including cash, guarantees, excess interest spread, subordination)	5%-25%	10%-25%	10%-25%	Min 15%	Min 20%	Min 20%	NA
Average Loan-to-value	70%-90%	65%-90%	65%-90%	50%-75%	NA	NA	NA
Average Pool Seasoning (in months)	6m-12m	3m-6m	3m-6m	3m-6m	1m-3m	3m-6m	NA
Maximum exposure per ABS transaction	5%-15%	5%-15%	5%-15%	5%-10%	5%-15%	5%-10%	5%-15%

Note - Kindly note that these are indicative ranges and final figures could vary depending upon the overall characteristics of the transaction and market conditions

In respect of single sell down loans the process would be similar to the one adopted for investing in the issuer directly. Similarly, the scheme in the normal course of business would not be investing in personal / micro finance pools, unless the levels of comfort arising of the transaction structures, satisfy the investment committee.

The above table is prepared after considering the risk mitigating measures such as Size of the loan, Average original maturity of the pool, Average seasoning of the pool, Loan to Value Ratio, Geographical Distribution and Structure of the pool, default rate distribution & credit enhancement facility. The information contained herein is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change in response to the same. This framework would be used as a reference for evaluation of investment into any securitized debt. However, each investment would also be evaluated on a case to case basis on its own merits apart from these limits.

#### Other risk mitigation measures

(a) Loan to Value Ratio – is an important parameter which highlights the underwriting standards of the issuer. Also, lower LTV ratios generally result in higher recoveries in case of default.

(b) Average seasoning of the pool - may vary depending on the asset type. Higher seasoning is preferred as it gives better visibility on delinquency levels in the pool.

(c) Default rate distribution – this is studied using empirical data for the originator. This is also a critical data used by the rating agency in determining the credit enhancement levels to be stipulated.

(d) Geographical Distribution – helps in identifying concentration risk in a particular geography and therefore reduces the default risk.

(e) Credit enhancement facility – is provided in pool securitization transactions and is very important as it is used to absorb credit losses stemming from default in the pool assets. The size of credit enhancement is determined on the basis of the issuer's credit risk profile, the type of asset being securitized and past pool performances.

(f) Liquidity facility – in some cases, in addition to the credit enhancement facility there is also a liquidity facility provided which is used to meet any shortfalls arising from delayed collections or delinquencies in the pool.

**Minimum retention percentage by originator of debts to be securitized:**

Although there is no specific guidelines with respect minimum retention percentage for which the originator had held the loans in its books), appropriateness of the seasoning (the period for which the originator has held loans on its books) and also the loan to value and installment to income profile of the pool are important parameters for making investment decision.

**Minimum retention period of the debt by originator prior to securitization**

For single loan securitization, there is currently no regulation for minimum retention period of debt by the originator. Our investment decision is driven by the credit quality of the underlying obligor.

For pool securitization, there is currently no regulation for minimum retention period of debt by the originator. Generally, the pool assets we acquire in the form of PTCs have a retention period of 3-6 months by the originator. We follow the extant guidelines pertaining to securitization as set out by the regulator.

**The mechanism to tackle conflict of interest when the mutual fund invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme of the fund:**

An investment by the scheme in any security is done after detailed analysis by the Fixed Income team and in accordance with the investment objectives and the asset allocation pattern of a scheme. The robust credit process ensures that there is no conflict of interests when a scheme invests in securitized debt of an originator and the originator in turn makes investments in that particular scheme. Normally the issuer who is securitizing instrument is in need of money and is unlikely to have long term surplus to invest in mutual fund scheme. Furthermore, there is clear cut segregation of duties and responsibilities with respect to Investment function and Sales function. Investment decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objectives

Our investment decisions are independent of other business functions and are solely based on the assessment of credit risk, liquidity risk and duration risk pertaining to a particular security.

**The resources and mechanism of individual risk assessment with the AMC for monitoring investment in securitized debt**

Risk assessment and monitoring of investment in Securities Debt is done by a team comprising of credit analyst, fund manager and Head of Fixed Income. The Investment committee also looks into a first time investment in credit, apart from sanctioning overall limits for the same. Investment Decisions are being taken independently based on the above mentioned parameters and investment by the originator in the scheme is based on their own evaluation of the scheme vis a vis their investment objective.

Apart from monitoring the credit quality of the underlying obligator / originator, for pool securitization transactions we closely monitor the monthly pool performance report which is sent out by the trustee. The reports are tracked for changes in specific pool characteristics which can impact the collection performance and

**Investment in Derivatives:**

The Scheme may use derivative instruments such as index futures, stock futures, index options, stock options, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations, as would be commensurate with the investment objective of the Scheme. The manner of use of derivatives instruments is illustrated below:

**Hedging & Portfolio balancing**

As part of the fund management exercise under the Scheme, the Trustee may permit the use of any of the instruments mentioned above or any other instrument that may become permissible in the future under applicable regulations. Such investment in Index futures, Stock options, Index Options, Stock Futures and other derivative instruments will be used with the objective of a) hedging the portfolio and/or b) rebalancing of the portfolio of the Scheme or c) for any other purpose as may be permitted by the Regulations from time to time.

The note below explains the concept of Index Futures, Options, with an example each, for the understanding of the Unitholders.

**Index Futures**

Due to ease of execution and settlement, index futures are an efficient way of buying / selling an Index compared to buying / selling a portfolio of physical shares representing an Index. Index futures can be an efficient way of achieving a Scheme's investment objectives. Index futures may do away with the need for trading in individual components of the Index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scripts. Index futures can also be helpful in reducing transaction costs and processing costs on account of ease of execution of one trade compared to several trades of shares comprising the Index and will be easy to settle compared to physical portfolio of shares representing an Index

The National Stock Exchange and the Bombay Stock Exchange introduced Index futures on Nifty (NSE-50) and Sensex (BSE 30) for three serial months. For example, in the month of September 2022, three futures were available i.e. September, October and November 2022, each expiring on the last working Thursday of the respective month

Let us assume the Nifty Index was 19,638.3 as on September 29, 2023 and three future indices were available as under:

Month	Bid Price	Offer Price
October 2023	19708	19710
November 2023	19824	19828
December 2023	19930	19940

The Fund could buy an Index of October 2023 as on September 29, 2023 at an offer price of 19710. The Fund would have to pay the initial margin as regulated by the exchanges and settle its Index position with daily marked to market i.e. receive profits/pay losses on a daily basis.

The following is a hypothetical example of a typical index future trade and the associated costs compared with physical stocks.

**(Amount in Rupees)**

Particulars	Index Future	Actual Purchase of Stocks
Index as on September 29, 2023	19638.3	19638.3
October 2023 Futures Cost	19710	
<b>A. Execution Cost</b>		
Carry costs (19710-19638.3)	71.7	Nil
<b>B. Brokerage Cost</b>		
Assumed at 0.02% for Index Future and 0.05% for spot stocks (0.02% of 19710) (0.05% of 19638.3)	3.94	9.82
<b>C. Securities Transaction Tax</b> STT for Index Futures is Nil STT for Spot Stocks is 0.10% (0.10% of 19638.3)	Nil	19.64
<b>D. Gains on Surplus Funds</b> (Assuming 6% return on 81% of the money left after paying (19% margin) (6% x 19638.3 x 81% x 27 days ÷ 365)	(70.6)	Nil
Cash Market/ Sale Price at expiry	19800	19800
<b>E. Brokerage on Sale</b>		
Assumed at 0.02% for Index Future and 0.05% for Spot stocks (0.02% of 19800) (0.05% of 19800)	3.96	9.9
<b>F. Securities Transaction Tax</b> STT for Index Futures is 0.0125% STT for Spot Stocks is 0.10% (0.0125% of 19800) (0.10% of 19800)	2.48	19.8
<b>Total Cost (A+B+C-D+E+F)</b>	<b>11.48</b>	<b>59.16</b>
<b>Profit</b>	<b>150.22</b>	<b>102.54</b>

As the above example demonstrates, the cost differential between purchasing Index Future and 50 stocks comprising Nifty (NSE-50) is a function of the carrying cost, the interest earned available to Fund Managers and the brokerage cost applicable in both cases. However, as mentioned earlier, as the Indian equity markets continues to have limitations in execution of trades due to the lack of adequate liquidity and the concept of circuit breakers, index future can allow a fund to buy all the stocks comprising the index at a nominal additional cost.

Please note that the above example is hypothetical in nature and the figures, brokerage rates etc. are assumed. In case the execution and brokerage costs on purchase of Index Futures are high and the returns on surplus funds are less, buying of index future may not be beneficial as compared to buying stocks comprising the Index. The actual return may vary based on actuals and depends on final guidelines / procedures and trading mechanism as envisaged by stock exchanges and other regulatory authorities.

### **Use of futures**

Futures can effectively be used as a substitute for underlying stocks e.g. if the Scheme has received fresh subscriptions and if it is not immediately possible to invest the cash so received into intended stocks, the Fund Manager can buy a Future contract and subsequently replace them by actual purchase of stocks. The reverse can be done in case of redemption of Units.

The Scheme typically holds cash in order to meet sudden redemption requests. This cash holding reduces the overall returns of the Scheme. By buying futures relative to this cash holding the Scheme can effectively increase its exposure to the market while keeping the cash required to meet redemption requirement.

### **Note on Risk:**

- In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.
- Interest Rate Risk – interest rate is one of the variables while valuing derivatives such as futures & options. For example, with everything remaining constant, when interest rates increase, the price of Call option would increase. Thus, fluctuations in interest rates would result in volatility in the valuation of derivatives.
- Credit Risk – With the phased implementation of physical settlement of stocks in equity derivative segment, though there is an element of risk of stock / funds not being received, the same is mitigated due to settlement guarantee similar to equity cash market segment.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

### **Option Contracts (Stock and Index)**

In the global financial markets, particularly securities markets, options have been, for quite many years, a means of conveying rights from one party to another at a specified price on or before a specific date, at a cost, which is called Premium. The underlying instrument can be an individual stock or a stock index such as the BSE Sensex (such options being referred to as index options). Options are used widely the world over to manage risk and generate income. options may be preferred over futures as they provide 0asymmetric pay offs.

There are broadly two kinds of Options trade viz. Long & Short. A Long Call is buying a Call option to purchase the stock at a later date at a fixed price called the strike price. A Long Put on the other hand is buying Put option i.e. an option to sell the stock at a later date at the strike price. Similarly A Short Call is selling a Call option which is also called writing a Call option by which the option writer has an obligation to sell the stock to the call buyer at the strike price. A Short Put is to sell or write a Put option i.e. an obligation to buy the stock from the Put buyer at the strike price. The specified price at which the shares are contracted to be purchased or sold is called the strike price. Options that can be exercised on or before the expiration date are called American Options, while those that can be exercised only on the expiration date are called European Options. Option contracts are designated by the type of option, name of the underlying, expiry month and the strike priceExample for Options

Buying a Call Option: Let us assume that the Scheme buys a call option of ABC Ltd. with strike price of Rs. 3500, at a premium of Rs. 100. If the market price of ABC Ltd on the expiration date is more

than Rs. 3500, the option will be exercised. The Scheme will earn profits once the share price crosses Rs. 3600 (Strike Price + Premium i.e. 3500+100). Suppose the price of the stock is Rs. 3800, the option will be exercised and the Scheme will buy 1 share of ABC Ltd. from the seller of the option at Rs 3500 and sell it in the market at Rs. 3800, making a profit of Rs. 200. In another scenario, if on the expiration date the stock price falls below Rs. 3500, say it touches Rs. 3000, the Scheme will choose not to exercise the option. In this case the Scheme loses the premium (Rs. 100), which will be the profit earned by the seller of the call option.

Thus for an option buyer, loss is limited to the premium that he has paid and gains are unlimited. The risk of an option writer i.e. the seller of the option, is unlimited while his gains are limited to the premiums earned. However, in the case of the Scheme, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss as illustrated in the example below.

**Buying a Put Option:** Let us assume that the Scheme owns shares of ABC Ltd., which are trading at Rs. 3500. The fund manager expects the price to rise to Rs. 3800 but at the same time wants to protect the downside. So, he can buy a put option at Rs. 3500 by paying a premium of, say, Rs. 100. If the stock falls to say Rs 3200 by expiry, the option becomes in-the-money by Rs. 300 and the scheme loses only the initial premium paid to buy the hedge. On the contrary, if the fund manager's view turns out to be right and the stock actually rallies to Rs. 3800, the scheme gains Rs. 300 from the stock and the hedging cost paid to buy the protection is the loss. Thus, adjusted for the hedging cost, the scheme gains Rs. 200 from the trade.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

**Writing a Call Option:** Let us assume that the Fund owns shares of ABC Ltd., which are trading at Rs. 3500. The Fund wishes to sell these shares at Rs.3800. It can write call option at Rs. 3800 and earn a premium of, say, Rs. 50. If the option is not exercised, the Fund earns a premium and if the stock price does reach Rs. 3800, the premium adds to the profits that the Fund would have booked by selling at that price. In this case, if the stock price of ABC Ltd. is less than Rs. 3800, the Fund earns Rs 50 and if it closes above Rs. 3800 and the option gets exercised by the buyer, the Fund gets the strike price of Rs. 3800 plus a premium of Rs. 50, i.e. effectively Rs. 3850. Any loss because of stock price movement beyond Rs. 3850 is actually an opportunity loss, as the Fund would otherwise have sold the shares at Rs. 3800.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

**Note on Risk:** The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter's gain being limited to the premiums earned. However, in the case of the Fund, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the strike price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the strike price.

The Scheme will use options only for the purpose of hedging and portfolio balancing or for any purpose as permitted by Regulations from time to time. Internal controls / limits for managing risks associated with options have been set up / laid down.

**Benefits of Covered Call Strategy:**

Covered call writing is a strategy where a writer (say the Fund) will hold a particular stock, and sell in the market a call option on the stock. Here the buyer of the call option now has the right to buy this stock from the writer (the Fund) at a particular price which is fixed by the contract (the strike price). The writer receives a premium for selling a call, but if the call option is exercised, he has to sell the underlying stock at the strike price. This is advantageous if the strike price is the level at which the writer wants to exit his holding / book profits. The writer effectively gains a fixed premium in exchange for the probable opportunity loss that comes from giving up any upside if the stock goes up beyond the strike price.

**Illustration/Example of Covered Call Strategy:**

The Scheme owns 5000 shares of A with a current market price of Rs 180. The view of the fund manager is that the price could decline by Rs 15 – Rs 20 over a one-month period. The fund manager does, however, wish to hold the shares due to the positive long-term outlook. The fund manager can cover the expected near-term decline by writing a call or buying a put.

A call option may be sold for a contract size of 5000 at a strike price of Rs 180 with an expiry date that is one month going forward. The Scheme receives a premium of Rs 10 (for example) for writing this call option in favour of the buyer. The buyer has the choice to buy the shares at Rs 180 on expiry date (usually the last Thursday of a month). The following are examples based on price trends after one month:

- if the stock price declines to Rs 170, the buyer of the call option will not exercise the right to buy as the stock can be purchased at a lower price in the spot market. The fund manager has ensured that the Rs 180 prevailing at the time of selling the option is protected through a combination of market price of Rs 170 and earned premium of Rs 10;
- If the stock price dips below Rs 170, the buyer will not exercise the option. The loss for the fund manager is limited to the extent to which price dips below Rs 170, as the decline from Rs 180 to Rs 170 is covered by the earned premium;
- If the stock price rises to Rs 190, the buyer of the option will exercise the right to buy the shares he can buy them at the strike price of Rs 180 and if he chooses to sell at the spot of Rs 190 to make a profit of Rs 10 per share. This price trend is, however, contrary to the expectations of the fund manager. There is no loss for the fund manager as he has already received Rs 10 as premium. This will ensure that his effective price in meeting the commitment to the holder of the call option is Rs 180 and
- If the stock price rises to more than Rs 190, the buyer will exercise the option. The loss to the fund manager will be limited to the extent to which the price is higher than Rs 190, as the premium of Rs 10 will cover partially the higher cost of the shares that have to be purchased to meet the commitment under the option.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

**Note on Risk:** The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter's gain being limited to the premiums earned. However, in the case of the Fund, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the strike price. The

writer of a call option bears a risk of loss if the value of the underlying asset increases above the strike price.

#### **F. Fundamental Attributes**

Following are the fundamental attributes of the schemes, in terms of Regulation 18 (15A) of SEBI (MF) Regulations:

- (i) Type of the scheme: As mentioned under the heading “Type of the Scheme” of Chapter III
- (ii) Investment Objective: As mentioned under the heading “Investment Objective” of Chapter III
- (iii) Investment Pattern: As mentioned under the heading “How will the scheme allocate its assets” of Chapter III
- (iv) Terms of Issue:
  - a. Liquidity provisions such as listing, repurchase, redemption. Investors may refer Chapter IV for detailed information on listing, repurchase and redemption.
  - b. Aggregate fees and expenses charged to the scheme. Investors may refer Chapter V on fees and expenses charged to the scheme.
  - c. Any safety net or guarantee provided. – Not Applicable

In accordance with Regulation 18(15A) of the SEBI (MF) Regulations, the Trustees shall ensure that no change in the fundamental attributes of the Scheme(s) and the Plan(s) / Option(s) thereunder or the trust or fee and expenses payable or any other change which would modify the Scheme(s) and the Plan(s) / Option(s) thereunder and affect the interests of Unitholders is carried out unless:

- SEBI has reviewed and provided its comments on the proposal;
- A written communication about the proposed change is sent to each Unitholder and an advertisement is given in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of the region where the Head Office of the Mutual Fund is situated; and
- The Unitholders are given an option for a period of atleast 30 calendar days to exit at the prevailing Net Asset Value without any exit load.

In addition to the conditions specified under Regulation 18 (15A) for bringing change in the fundamental attributes of the scheme, it has been decided that trustees shall take comments of the Board before bringing such change(s).

#### **G. How will the scheme benchmark its performance?**

The performance of the Scheme is measured against Nifty India Consumption Index (Total Return Index).

#### **Rationale for adoption of benchmark:**

The NIFTY India Consumption Index is designed to reflect the behaviour and performance of a diversified portfolio of companies representing the domestic consumption sector which includes sectors like Consumer Non-durables, Healthcare, Auto, Telecom Services, Pharmaceuticals, Hotels, Media & Entertainment, etc. The NIFTY India Consumption Index comprises of 30 companies listed on the National Stock Exchange (NSE). The composition of the aforesaid benchmark is such that, it is most suited for comparing the performance of the scheme. The Trustees reserves right to change benchmark in future for measuring performance of the scheme and as per the guidelines and directives issued by SEBI from time to time.

## **I. What are The Investment Restrictions?**

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

1. The Scheme shall not invest more than 10% of its NAV in the equity shares or equity related instruments of any company.

Provided that, the limit of 10% shall not be applicable for investments in case of index fund or exchange traded fund or sector or industry specific scheme including thematic fund.

2. All investments by a mutual fund scheme in equity shares and equity related instruments shall only be made provided such securities are listed or to be listed.
3. The Mutual Fund under all its Scheme(s) shall not own more than 10% of any company's paid up capital carrying voting rights.

Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

4. As per Clause 1 of the Seventh Schedule of MF Regulation, the Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company.

Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

- a. 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or
- b. 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
- c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Board of Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of Credit Rating Agency (CRAs) between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills.

Provided further that investments within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.

5. The investment of the Scheme in the following instruments as per para 12.3 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme: -

- Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and –
- Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade

The above limits shall not be applicable on investments in securitized debt instruments. Investment by the Scheme in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.

Further, the investment in debt instruments having credit enhancements should be sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMCs will initiate necessary steps to ensure protection of the interest of the investors.

6. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments. It is further clarified that the investment limits are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.
7. The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. However, the aforesaid provision will not apply to fund of funds scheme.
8. The Scheme shall not make any investments in:
- (a) any unlisted security of an associate or group company of the Sponsors; or
  - (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
  - (c) the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets.
9. The Scheme shall not invest in any Fund of Funds Scheme.
10. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-
- (a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)

(b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.

c) the same are in line with para 12.30 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

11. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
  - Provided that the Mutual Fund may engage in short selling of securities in accordance with the framework relating to short selling and securities lending and borrowing specified by SEBI.
  - Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.
  - Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.
12. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or Reinvestment of Income Distribution cum capital withdrawal option (IDCW) to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.
13. The Mutual Fund shall enter into transactions relating to Government Securities only in Electronic form.
14. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.
15. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to the guidelines issued by SEBI vide its circular dated April 16, 2007, to be read with SEBI circular dated August 16, 2019 and September 20, 2019, as may be amended from time to time. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.
16. In accordance with the guidelines as stated under para 12.1 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:
  - i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

However, the scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

- ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.
  - iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:
    - a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.
    - b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.
    - c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.
    - iv. Investments in debt instruments, listed debt instruments shall include listed and to be listed debt instruments
17. Investments in Derivatives shall be in accordance with the guidelines as stated under para 7.5, 7.6 and 12.25 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as may be amended from time to time.
18. Investment restrictions w.r.t. REITs and InvITS:
- a) The Mutual Fund under all its schemes shall not own more than 10% of units issued by a single issuer of REIT and InvIT.
  - b) The Scheme shall not invest more than 10% of its NAV in the units of REITs and InvITs.
  - c) The Scheme shall not invest more than 5% of its NAV in the units of REITs and InvITs issued by a single issuer.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Apart from the above investment restrictions, the Fund follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc, within the above mentioned restrictions, and these are subject to review from time to time.

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supercede /override the provisions of the Trust Deed.

### **Investments by the AMC in the Fund**

Pursuant to SEBI (Mutual Funds) (Second Amendment) Regulation 2021, AMC shall invest in the scheme based on the risk associated with the scheme as specified in para 6.9 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 read with AMFI Best Practice Guidelines Circular 135/BP/100/2022-23 dated 26th April 2022 and any other circulars issued there under, from time to time. Based on the current risk associated the minimum percentage of AUM to be invested in 0.13% of the AUM.

During the NFO period, AMC's investment shall be made during the allotment of units and shall be calculated as a percentage of the final allotment value excluding AMC's investment pursuant to this circular

In addition to investments as mandated above, the AMC may invest in the Scheme subject to the SEBI (MF) Regulations. Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

### **Limits for investment in derivatives instruments**

In accordance with para 7.5 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the following conditions shall apply to the Scheme's participation in the derivatives market. The investment restrictions applicable to the Scheme's participation in the derivatives market will be as prescribed or varied by SEBI or by the Trustees (subject to SEBI requirements) from time to time.

#### **I. Position limit for the Mutual Fund in equity index options contracts**

- a. The Mutual Fund position limit in all equity index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in equity index option contracts, whichever is higher,
- b. This limit would be applicable on open positions in all options contracts on a particular underlying index.

#### **ii. Position limit for the Mutual Fund in equity index futures/stock futures contracts:**

The Mutual Fund position limit in all equity index futures/stock futures contracts on a particular underlying index shall be Rs. 500 crore; or  
15% of the total open interest in the market in equity index futures/stock futures contracts, whichever is higher,

This limit would be applicable on open positions in all futures contracts on a particular underlying index.

#### **iii. Additional position limit for hedging.**

In addition to the position limits at point (i) and (ii) above, Mutual Fund may take exposure in equity index derivatives subject to the following limits:

Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.

Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

#### **iv. Position limit for the Mutual Fund for stock based derivative contracts**

The combined futures and options position limit shall be 20% of applicable MWPL

#### **v. Position limit for the Scheme**

The position limits for the Scheme and disclosure requirements are as follows—

For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of the Mutual Fund shall not exceed the higher of: 1% of the free float market capitalisation (in terms of number of shares).

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.

For index based contracts, the Mutual Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

### Exposure Limits:

As per para 12.25 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 on “Norms for investment and disclosure by Mutual Funds in derivatives”, the limits for exposure towards derivatives are as under:

1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
2. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
3. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
4. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following:-
  - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
  - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
  - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
  - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
5. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
6. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
7. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

In accordance with para 12.25 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 on “Norms for investment and disclosure by mutual funds in derivatives”, are as under:

Mutual Fund schemes are permitted to undertake transactions in equity derivatives in accordance with the exposure limits specified in para 12.25 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.. Paragraph 4 of the said circular, *inter-alia*, states that *Mutual Funds shall not write options or purchase instruments with embedded written options.*

Based on the suggestions of market participants and recommendations of Mutual Fund Advisory Committee (MFAC), it has been decided to permit mutual funds to write call options under a covered call strategy as prescribed below:

*Writing of Covered Call Options by Mutual Fund Schemes:*

- a. In partial modification to aforementioned circular, Mutual Fund schemes (except Index Funds and ETFs) may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:
- b. The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme
- c. The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.
- d. At all points of time the Mutual Fund scheme shall comply with the provisions at paragraph (a) and (b) above. In case of any passive breach of the requirement at paragraph (a), the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.
- e. In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (a) and (b) above while selling the securities
- f. In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.
- g. The premium received shall be within the requirements prescribed in terms of paragraph 5 of SEBI circular dated August 18, 2010 i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme
- h. The exposure on account of the call option written under the covered call strategy shall not be considered as exposure in terms of para 12.25.8 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.
- i. The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the scheme until the position is closed or expired.

As and when SEBI notifies amended limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

### **Creation of segregated portfolio**

In accordance with para 4.4 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, provisions have been included for creation of segregated portfolio in the scheme.

### **Explanations:**

1. The term 'segregated portfolio' shall mean a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme.
2. The term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio.
3. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

Note 1: As per para 4.4 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, credit event is considered for creation of segregated portfolio, however for the purpose of Para 4.4.3.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

Note 2: Portfolio referred herewith will include interest accrued as well.

### **Terms and conditions in respect of Creation of segregated portfolio in the scheme:**

AMC may create segregated portfolio in the scheme and it shall be subject to guidelines specified by SEBI from time to time including the following:

1. Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:
  - a. Downgrade of a debt or money market instrument to 'below investment grade', or
  - b. Subsequent downgrades of the said instruments from 'below investment grade', or
  - c. Similar such downgrades of a loan rating.
2. In case of difference in rating by multiple CRAs, AMC shall consider the most conservative rating. Creation of segregated portfolio shall be based on issuer level credit events as per above point no. 1 and shall be implemented at the ISIN level.
3. Creation of segregated portfolio shall be optional and at the discretion of Kotak Mahindra Asset Management Company Ltd ('AMC'). It should be created only if the Scheme Information Document (SID) of the scheme has provisions for segregated portfolio with adequate disclosures.

Further, in accordance with para 4.4 of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023,, Creation of segregated portfolio in mutual fund schemes has been permitted in respect of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following terms:

- a. Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount. As per SEBI circular dated December 28, 2018, credit event is considered for creation of segregated portfolio, however

for the purpose of para 4.4. of SEBI Master circular no SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

- b. AMCs shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. The AMC/Fund are likely to be classified as a 'Foreign Financial Institution' (Investment Entity as per Annexure 1(i)) under the FATCA provisions. In accordance with FATCA provisions, the AMC/Mutual Fund will be required to undertake due diligence process and identify US reportable accounts and collect such information/documentary evidences of the US and/or non-US status of its investors/Unit holders and disclose such information (through its agents or service providers) as far as may be legally permitted about the holdings, investment returns and/or to US Internal Revenue Service (IRS) or the Indian Tax Authorities, as the case may be for the purpose of onward transmission to the IRS pursuant to the new reporting regime under FATCA.

## B. Ongoing Offer Details

<b>Ongoing Offer Period</b>  This is the date from which the scheme reopened for subscriptions/redemptions after the closure of the NFO period.	The Scheme will reopen for subscription/redemptions within 5 business days from the date of allotment of units.
<b>Ongoing price for subscription (purchase)/switch-in</b>  This is the price you need to pay for purchase/switch-in.	At the applicable NAV.  The Methodology of calculating the Sale price for mutual fund units (Purchase price for investors) is given below:  <b>Sale price</b> is the price at which investor can invest in units of mutual fund schemes. The entry load has been abolished with effect from August 01, 2009 vide para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023. Hence, Sale price is equal to the applicable NAV.
<b>Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors.</b>  This is the price you will receive for redemptions/switch outs.  Example: If the applicable NAV is Rs. 10, exit load is 2% then redemption price will be: $\text{Rs. } 10 * (1 - 0.02) = \text{Rs. } 9.80$	The redemption will be at Applicable NAV based prices, subject to applicable exit load; if any.  As required under the Regulations, asset management company shall ensure that the repurchase price of an open ended scheme is not lower than 95% of the Net Asset Value.  The Methodology of calculating the Repurchase price (Redemption price) of units is given below:  <b>Repurchase price</b> is the price at which investor can redeem units of mutual fund schemes. While calculating repurchase price the exit load, as applicable, is deducted from the applicable NAV.  For example, If the applicable NAV is Rs. 10, exit load is 1% then repurchase price will be: $\text{Rs. } 10 * (1 - 0.01) = \text{Rs. } 9.90$ .
<b>Cut off timing for subscriptions/ redemptions/ switches</b>  This is the time before which your application (complete in all respects) should reach the official points of acceptance.	<b>Applicable NAV for Purchases/Switch-ins</b> <ol style="list-style-type: none"> <li>1. In respect of valid applications received upto 3.00 p.m. on a business day and entire amount is available in the mutual fund's account for utilization before the cut off time of the same day – closing NAV of the day of receipt of application;</li> <li>2. In respect of valid applications received after 3.00 p.m. on a business day and the entire amount is available in the mutual fund's account for utilization before cut off time of the next business day – the closing NAV of the next business day;</li> <li>3. Irrespective of the time of receipt of the application where the entire amount is available in Mutual fund's account for utilization before cut off time on any subsequent business day – the closing NAV of such subsequent business day.</li> </ol> The above cut-off timings and applicability of NAV shall be applicable in respect of valid applications received at the Official Point(s) of Acceptance on a Business Day:

	<ol style="list-style-type: none"> <li>1. It is clarified that switches will be considered as redemption in the switch-out scheme and purchase / subscription in the switch-in scheme</li> <li>2. Cheques received on a business day may be deposited with the primary bankers of the respective location on the next business day. NAV shall be as per the applicable NAV mentioned above. To enable early sighting of funds by the schemes, investors are requested to avail of electronic facilities like RTGS / NEFT in respect of subscriptions and submit the proof of transfer of funds along with their applications. AMC shall not be responsible for any delay on account of banking clearance or circumstances which are beyond the control of AMC.</li> <li>3. The revised provisions for applicability of NAV based on realization of funds will be applicable to all types of investment including various systematic investments routes (viz, SIP, STP, Transfer of IDCW Plan etc.) as may be offered by the Scheme from time to time.</li> </ol> <p><b>Applicable NAV for Redemption/ Switch outs</b></p> <ol style="list-style-type: none"> <li>a) where the application received upto 3.00 pm – closing NAV of the day of receipt of application; and</li> <li>b) an application received after 3.00 pm – closing NAV of the next business day.</li> </ol> <p>Further, where the AMC or the Registrar has provided a facility to the investors to redeem /switch-out of the Scheme through the medium of Internet by logging onto specific web-sites or any other facilities offered by the AMC and where investors have signed up for using these facilities, the Applicable NAVs will be as provided above.</p> <p><b>Technical issues when transactions are processed through online facilities/ electronic modes.</b></p> <p>The time of transaction done through various online facilities / electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request for purchase / SIP/ sale / switch of units is received in the servers of AMC/RTA. In case of transactions through online facilities / electronic modes, there may be a time lag of few seconds or upto 1-7 banking days between the amount of subscription being debited to investor's bank account and the subsequent credit into the respective Scheme's bank account. This lag may impact the applicability of NAV for transactions where NAV is to be applied, based on actual realization of funds by the Scheme. Under no circumstances will Kotak Asset Management Company Limited or its bankers or its service providers be liable for any lag / delay in realization of funds and consequent pricing of units. The AMC has the right to amend cut off timings subject to SEBI (MF) Regulations for the smooth and efficient functioning of the Scheme. Representation of SIP transaction which have failed due to technical reasons will also follow same rule.</p>
<b>Where can the applications for purchase/redemption switches be submitted?</b>	Applications can be made either by way of a “Regular Application or Transaction slip” along with a cheque/DD or fund transfer instruction. The Mutual Fund may introduce other newer methods of application which will be notified as and when introduced. Investors should complete the

	<p>Application Form and deliver it along with a cheque/draft (i.e. in case of “Regular Application”) or fund transfer instructions at any of the official points of acceptance of transactions listed below,</p> <p>First time investments can be made only by way of duly filled in application form.</p> <p>(1) At the Official points of acceptance of transactions as given on the back cover of this document.</p> <p>(2) For investments through switch transactions, transaction slip with application forms can be submitted at the AMC branches and CAMS Investor Service Centres &amp; branches given in the last page.</p> <p>Further in line with para 16.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, it has been decided to allow investors to directly access infrastructure of the recognised stock exchanges to purchase mutual fund units directly from Mutual Fund/ Asset Management Companies. SEBI circular has advised recognised stock exchanges, clearing corporations and depositories to make necessary amendment to their existing byelaws, rules and/or regulations, wherever required.</p> <p>Redemption/Switch requests: Where Units under a Scheme are held under both Direct Plan and Regular Plan, investors should clearly mention the plan from which redemption/switch requests are to be processed. If the investor does not mention the plan then the application may be rejected.</p>
<b>Direct Plan</b>	<p>With effect from January 1, 2013, there are two plans under the scheme namely, Regular Plan and Direct Plan</p> <p>Regular Plan: This Plan is for investors who wish to route their investment through any distributor.</p> <p>Direct Plan: This Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Fund and is not available for investors who route their investments through a Distributor.</p> <p>The portfolio of both plans will be unsegregated.</p> <p>All characteristics such as Investment Objective, Asset Allocation Pattern, Investment Strategy, risk factors, minimum investment amount, additional investment amount, availability of options including sub options, SIP/STP/SWP/Transfer of IDCW Plan/FSIP facilities offered and terms and conditions including load structure will be the same for Direct Plan and Regular Plan. Except that</p> <p>(a) Switch of investments from Regular Plan, where the transaction has been received with broker code (whether the investments were made before or after the January 1, 2013) to Direct Plan shall be subject to applicable exit load, if any.</p> <p>(b) No exit load shall be levied:</p> <ul style="list-style-type: none"> <li>in case of switch of investment from Regular Plan, where transaction has been received without broker code (whether the investments were made before or after the January 1, 2013) to Direct Plan.</li> </ul>

Smart Facility (Smart SIP, Smart SWP, Smart STP)</li> <li>11. Smart Facility i.e. Smart Systematic Investment Plan (SSIP)/Smart Systematic Withdrawal Plan("SSWP")/Smart Systematic Transfer Plan("SSTP")</li> </ol>

	<p><b><u>Systematic Investment Plan (SIP):</u></b></p> <p>This facility enables investors to save and invest periodically over a longer period of time. It is a convenient way to "invest as you earn" and affords the investor an opportunity to enter the market regularly, thus averaging the acquisition cost of Units. Any Unitholder can avail of this facility subject to certain terms and conditions contained in the Application Form. The Fundamental Attributes and other terms and conditions regarding purchase/redemption, price and related matters are the same as contained in this SID.</p> <p>The first SIP can be for any date of the month on which a NAV is declared in the scheme. In respect of the second and all subsequent SIPs, investors can select any one date among 1<sup>st</sup> to 31<sup>st</sup> as the SIP Date (in case the chosen fall on non-Business day the transaction will be effected on the next Business day of the scheme), and can also choose the SIP frequency as monthly or quarterly subject however, to the condition that there shall be a minimum gap of 28 days between the first and the second SIP. The aforesaid minimum gap shall be applicable only for SIPs registered via direct / auto debit. The minimum SIP installment amount is Rs. 1000/-. In case the SIP date is not selected for the aforesaid facility, 7<sup>th</sup> of every month/quarter will be treated as the default date.</p> <p>The SIP request should be for a minimum of 6 months. The SIP payments can be made either by issue of Post Dated Cheques or by availing the Auto Debit Facility through ECS (available in select locations only) or by availing the Direct Debit Facility / Standing Instructions Facility (Unitholders may check with their bankers for availability of this facility). However, the first investment in SIP through the Auto Debit Facility or Direct Debit Facility needs to be made compulsorily by issuance of a cheque from the account from which the Auto Debit / Direct Debit is requested. Investors can also submit SIP applications along with cancelled cheque leaf of the account from where the investor intends to commence the SIP.</p> <p>If the first SIP investment is through a demand draft or pay order or the initial investment cheque is drawn from a bank account, other than the bank account mentioned in the SIP mandate, the investor has to ensure that the bank details and signatures are attested by the banker of the bank from where the SIP is initiated. Alternatively, the investors should provide a copy of the cancelled cheque leaf of the bank account from where the investor intends to do the SIP.</p> <p>The load structure applicable for each installment will be as per the load structure applicable at the time of registration of SIP. Changes in load structure effected by the AMC after that date may not be applicable unless stated specifically.</p> <p><b><u>SIP Top Up Facility:</u></b></p> <p><b><u>Description:</u></b> It is a facility whereby an investor has an option to increase the amount of the SIP Installment by a fixed amount at pre-defined intervals. . This will enhance the flexibility of the investor to invest higher amounts during the tenure of the SIP.</p>

15. In case of FSIP, if four consecutive installments fail, then FSIP will be ceased.

16. The first FSIP installment will be processed as per the standard installment amount specified by the unit holder at the time of enrolment and not based on PE value of Nifty 50.

17. Once the FSIP has been stopped, the unit holder needs to provide a new request to start FSIP.

18. In respect of FSIP enrollments made in any of the existing open ended Scheme(s), the Load Structure prevalent at the time of enrollment shall be applicable to the investors during the tenure of the FSIP.

19. FSIP Facility will not be available if the Folio / Certificate is under Lien or marked "FROZEN" on the advice of I.T. authorities /regulatory authorities / Court or any other reason.

20. All requests for registering or deactivating the FSIP shall be subject to an advance notice of 28 (Twenty-Eight) business days. Investors can deactivate the facility by sending a written request to the Investor Service Centers.

**Systematic Withdrawal Plan:**

This facility enables the Unitholders to withdraw (subject to deduction of tax at source, if any) sums from their investments in Scheme at periodic intervals through a one-time request. The withdrawals can be made either Monthly (on 1<sup>st</sup>, 7<sup>th</sup>, 14<sup>th</sup>, 21<sup>st</sup> or 25<sup>th</sup> of every month) or Quarterly (on 1<sup>st</sup>, 7<sup>th</sup>, 14<sup>th</sup>, 21<sup>st</sup> or 25<sup>th</sup>, as the case may be. In case any of these days fall on non-business day the transaction will be effected on the next business day of the scheme. SWP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of SWP. In case the SWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SWP registration request received for a period lesser than 7 days in the interest of unit holders.

Example: for Monthly SWP if the SWP date opted is 7<sup>th</sup> of every month from 7<sup>th</sup> January and submitted on 3<sup>rd</sup> January then the registration of this SWP will be from 7<sup>th</sup> February onwards.

This facility is available in two options to the Unitholders:

**Fixed Option:** Under this option, the Unitholder can seek redemption of a fixed amount of not less than Rs. 1000 from his Unit account. In this option the withdrawals will commence from the Start Date (being one of the dates indicated above) mentioned by the Unitholder in the Application Form for the facility. The Units will be redeemed at the Applicable NAV of the

	<p>respective dates on which such withdrawals are sought. If the net asset value of the units outstanding on the withdrawal date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last SWP installment then the entire amount will be processed along the last SWP installment.</p> <p><b>Appreciation Option:</b> Under this option, the Unitholder can seek redemption of an amount equal to a periodic appreciation on the investment.</p> <p>The Unitholder redeems only such number of Units, which when multiplied by the Applicable NAV is, in amount terms equal to the appreciation in his investment over the last month / quarter.</p> <p>The investor would need to indicate in his systematic withdrawal request, the commencement / start date from which the appreciation in investment value should be computed. The withdrawal will commence after one month/quarter (as requested by the investor) from the commencement / start date mentioned by the Unitholder in the Application Form and can, at the investor's discretion be on 1<sup>st</sup>, 7<sup>th</sup>, 14<sup>th</sup>, 21<sup>st</sup> or 25<sup>th</sup> of the month / quarter.</p> <p>The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. In case the investor purchases additional Units, the withdrawal amount would include the appreciation generated on such Units as well. In the absence of any appreciation, the redemption under this option will not be made.</p> <p>For both fixed and appreciation option, the provision of minimum redemption amount / units will not be applicable for redemption made under this facility.</p> <p><b><u>Systematic Transfer Plan (STP)</u></b></p> <p>This facility enables the Unitholders to switch an amount from their existing investments in a Scheme/Plan/Option to another Scheme/Plan/Option of the Scheme, which is available for investment at that time, at periodic intervals through a one-time request. The switch can be made daily, weekly, monthly or quarterly. Under this facility the switch by the Unitholders should be within the same account/ folio number. The transfers can be made either Daily or Weekly or Monthly (on any business day) or Quarterly (on any business day). The amount so switched shall be reinvested in the other scheme / plan and accordingly, to be effective, the systematic transfer must comply with the redemption rules of transferor scheme and the issue rules of transferee scheme (e.g. exit / entry load etc)</p> <p>STP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of STP. In case the STP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders.</p>

	<p>Example: for Monthly STP if the STP date opted is 7<sup>th</sup> of every month from 7<sup>th</sup> January and submitted on 3<sup>rd</sup> January then the registration of this STP will be from 7<sup>th</sup> February onwards.</p> <p>This facility offers two options to the Unitholders:</p> <p><b>Fixed Option:</b> Under this option, the Unitholder can switch fixed amount of not less than Rs. 1000/- from his Unit account. In this option the switch will commence from the Start Date mentioned by the Unitholder in the application form for the facility. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be created at the Applicable NAV of such Scheme/Plan/Option on the respective dates. If the net asset value of the units outstanding on the transfer date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last STP installment, then the entire amount will be processed along the last STP installment.</p> <p><b>Appreciation Option:</b> Under this option, the Unitholder can seek switch of an amount equal to the periodic appreciation on the investment. Under this option the Unit holder switches only proportionate number of Units, which when multiplied by the applicable NAV is, in amount terms equal to the appreciation in the investment over the last month/quarter.</p> <p>For both Fixed and appreciation option the provision of minimum redemption and minimum investment amount / units will not be applicable for transfer / switch transactions made under this facility for both switch out and switch in schemes.</p> <p>The investor has to mention a "Start Date". The first switch will happen after one month/quarter from the start date. In case the investor purchases additional Units, the amount to be switched would be equal to the appreciation generated on such Units. In the absence of any appreciation as mentioned above, the switch under this option will not be made. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be allotted at the Applicable NAV of such Scheme/Plan/Option on the respective dates.</p> <p><b>Transfer of Income Distribution cum capital withdrawal plan (IDCW):</b></p> <p>Transfer of Income Distribution cum capital withdrawal plan (IDCW) is a facility whereby the unit holders under the IDCW Options (other than Daily Reinvestment Sub-option) of the open ended Schemes of KMMF can opt to transfer their IDCW to any other Investment option (other than Daily Reinvestment Sub-option) under any other open ended schemes of KMMF. Transfer of IDCW facility will be available to unit holder(s) holding units</p>
--	---

	<p>in non-demat form under the IDCW Option of the Transferor Schemes.</p> <p>Under the Transfer of IDCW Plan facility investors cannot transfer their IDCW into certain category of transferee schemes viz, close ended Schemes, Exchange Traded Funds (ETFs), and Kotak Tax Saver Fund.</p> <p>Under Transfer of IDCW, IDCW as &amp; when declared (as reduced by the amount of applicable statutory levy) in the transferor scheme (subject to minimum of Rs.500/-) will be automatically invested without any exit load into the transferee scheme, as opted by the Unit holder. Such transfer will be treated as fresh subscription in the transferee scheme and invested at the Applicable NAV of the Transferee Scheme. If the IDCW amount in the Transferor Scheme is less than Rs.500/- the IDCW will be automatically reinvested in the Transferor Scheme itself and hence will not be transferred. The provision for 'Minimum Application Amount' specified in the respective transferee scheme's SID will not be applicable under Transfer of IDCW.</p> <p>Enrolment under the Transfer of IDCW facility will automatically override any previous instructions for 'Payout of Income Distribution cum capital withdrawal option (IDCW)' or 'Payout of Income Distribution cum capital withdrawal option (IDCW)' option in the transferor scheme. No Exit Load will be levied on units allotted in the Transferee Scheme under the Transfer of Income Distribution cum capital withdrawal plan (IDCW).</p> <p>Unit holders who wish to enroll for the Transfer IDCW facility are required to fill Transfer IDCW Enrollment Form available with the ISC's, distributors/ agents and also available on the website <a href="http://www.kotakmf.com">www.kotakmf.com</a></p> <p>The request for enrolment or cancellation for Transfer IDCW must be submitted at least 7 days prior to the Record Date for the IDCW. In case of the condition not being met, the enrolment would be considered valid from the immediately succeeding Record Date of the IDCW, provided the difference between the date of receipt of a valid application for enrolment under Transfer IDCW and the next Record Date for the IDCW is not less than 7 days.</p> <p>The AMC / Trustee reserve the right to change/ modify the terms and conditions of the Transfer IDCW on a prospective basis.</p> <p><b><u>Switching</u></b></p> <p>Unitholders of the Scheme have the option of switching out all or part of their investment in the Scheme/ Plan/ Option to any other Option of the Scheme or to any other Scheme / Plan/ Option of the Scheme.</p> <p>A switch has the effect of redemption from a Scheme/Plan/ Option and a purchase in the other Scheme/Plan/Option to which the switching has been done and all the terms and conditions pertaining to redemption and purchase of the Units of the respective Scheme shall apply to a switch, unless otherwise specified.</p> <p>Switch is affected by redeeming Units from the Scheme/ Plan/Option and investing the net proceeds in the other Scheme/Plan/Option.</p>

Note: The above example does not contain any TDS / STT deduction. VTP determined will be net of applicable taxes.

36. The minimum amount and tenure of VTP would be as applicable to normal STP (Specified Transaction Period) facility in respective schemes. Frequency of the VTP is mentioned as below:

Particulars	VTP Transaction Dates	Minimum no. of installments and Minimum amount per instalment
<b>Daily</b>	Every Business Day	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
<b>Weekly</b>	Any day of the Week (except Saturday & Sunday)	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
<b>Monthly</b>	Any Date	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
<b>Quarterly</b>	Any Date	6 installments of Rs.1000/- each and in multiples of Re.0.01/- thereafter

37. In case of valid VTP enrolment forms received, indicating choice of option other than the growth option in the Target Scheme, it will be deemed as the growth option in the Target Scheme and processed accordingly.

38. In case the VTP commencement date is less than 10 calendar days from the date of submission of registration form, the same will commence from the 11th day from the date of receipt of valid registration form. The AMC reserves the right to process the VTP registration request received for a period lesser than 10 calendar days in the interest of unit holders.

39. There is no maximum duration for VTP enrollment.

40. The first VTP installment will be processed for the fixed installment amount specified by the investor at the time of enrolment. From the second installment onwards, the transfer amount shall be computed as per formula stated above.

41. If there is any other financial transaction (Purchase, redemption or switch or Systematic Investment Plan) processed in the target scheme during the tenure of VTP, the VTP will be processed as normal STP for the rest of the installments for a fixed amount, also there will not be any change in number of installments.

42. In case of VTP, if four consecutive installments fail, then VTP will be ceased. In case the amount to be invested is not available, the transaction will be rejected. After 4 consecutive rejects, this facility will be cancelled.

	<p>43. The VTP will be processed subject to the terms, applicable loads (if any), of the Target scheme and Source Scheme.</p> <p>44. An investor can select this facility whereby the investor chooses to transfer on a periodic basis a variable amount from any “Source Scheme” into any “Target Scheme”.</p> <p>45. Once the VTP has been stopped, the unit holder needs to provide a new request to start VTP again.</p> <p>46. to provide a Base SSIP/SSWP/SSTP amount. Basis this Base amount, the amount for SSIP/SSWP/SSTP, which will be linked to the percentage of Net Equity allocation (equity and equity related securities net of hedged positions using derivatives) of Kotak Balanced Advantage Fund (“KBAF”), will be calculated.

It could be suitable for investors who are looking to invest/transfer/withdraw periodically, based on the different market conditions, i.e. either higher, base or lower amount(s).

#### **Key Features of Smart Facility:**

47. SSIP/SSWP/SSTP are market linked products.

48. For those who wish to avail the said facility in case of existing investors, SSIP/SSWP/SSTP Investment form(s) needs to be submitted for each SSIP/SSWP/SSTP registration. In case of SSIP, investors have to compulsorily mention folio number details. New investors to fill and submit Investment Application Forms along with SSIP/SSWP/SSTP Investment forms.

49. For SSTP:

<b>Sr. No</b>	<b>Particulars</b>	<b>Eligible Schemes</b>
1.	Smart Systematic Transfer Plan (SSTP)	SSTP from (Transferor Scheme)
		All Open Ended Debt Schemes of Kotak Mahindra Mutual Fund (“KMMF”); All Open Ended Debt Index Schemes of KMMF; Kotak Equity Arbitrage Fund; Kotak Debt Hybrid Fund; Kotak Equity Savings Fund.
		SSTP to (Transferee Scheme)
		Kotak Consumption Fund

50. Individual Enrolment Form should be filled for each SSIP/SSTP transaction. Separate forms to be used for each SSWP option under each folio / scheme /plan. For multiple SSWP option under same folio/ scheme/ plan separate forms for each enrolment to be used.

51. The details for SSIP, SSTP and SSWP are as mentioned below:

<b>Sr. No</b>	<b>Facility</b>	<b>Frequency</b>	<b>Days/Dates available</b>	<b>Minimum number of Investments/Transfers/Withdrawals</b>
1.	SSIP	Monthly or Quarterly	Any date from 1 <sup>st</sup> to 31 <sup>st</sup> of a given month/quarter.	As per the applicable Scheme Information document limits of the Scheme
2.	SSTP	Monthly or Quarterly	<ul style="list-style-type: none"> <li>Any Business Day (Monday-Friday)</li> <li>Any Business date from</li> </ul>	6

			1 <sup>st</sup> to 31 <sup>st</sup>	
3.	SSWP	Monthly /Quarterly	1 <sup>st</sup> , 7 <sup>th</sup> , 14 <sup>th</sup> , 21 <sup>st</sup> & 25 <sup>th</sup>	6

52. The Base amount for SSIP/SSWP/SSTP:

53. The investor has to mandatorily and clearly specify the Base SSIP/SSWP/SSTP amount;

54. The minimum Base SSIP/SSWP/SSTP amount would be the minimum Systematic Investment Plan (**SIP**) /Systematic Withdrawal Plan (**SWP**)/ Systematic Transfer Plan (**STP**) [STP limits of transferor scheme] amount, as applicable as per the SID of the Scheme(s).

**55. Calculation of SSIP/SSTP amount:**

56. The amount to be invested in case of SSIP / to be transferred from the Transferor scheme to Transferee scheme in case of SSTP shall be basis the below mentioned details:

For SSIP/SSTP		
(A)	(B)	(C)
Net Equity Allocation for KBAF	Default option	Investor defined Amount
> 60%	2 times Base SSIP/SSTP Amount	Investor defined Maximum SSIP/SSTP Amount
40%- 60% (Inclusive of 40 and 60)	Base SSIP/SSTP Amount	Base SSIP/SSTP Amount
< 40%	0.5 times Base SSIP/SSTP Amount	Investor defined Minimum SSIP/SSTP Amount

**For SSIP:**

57. If net equity allocation percentage of KBAF for the trigger date is greater than 60%, then SSIP amount would be twice the Base SSIP amount or Investor defined Maximum SSIP amount, if specified by the investor.

58. If the net equity allocation percentage for KBAF for the trigger date is between 40% and 60% (including 40% and 60%), then Base SSIP amount would be triggered.

59. If the net equity allocation percentage for KBAF for the trigger date is less than 40%, then SSIP amount would be half the Base SSIP amount or Investor defined Minimum SSIP Amount, if specified by the investor.

**For SSTP:**

60. If the net equity allocation percentage for KBAF for the trigger date is greater than 60%, then SSTP amount would be twice the Base SSTP amount or Investor defined Maximum SSTP Amount, if specified by the investor.

61. If the net equity allocation percentage for KBAF for the trigger

	<p>date is between 40% and 60% (including 40% and 60%), then Base SSTP amount would be triggered.</p> <p>62. If the net equity allocation percentage for KBAF for the trigger date is less than 40%, then SSTP amount would be half the Base SSTP amount or Investor defined Minimum SSTP Amount, if specified by the investor.</p> <p>63. In case of SSIP/SSTP, the investor has an option to mention the Maximum amount /Minimum amount In case no amount(s) are mentioned by the investor, the amount to be invested/transferred shall be as per the Default option, as per details mentioned under column B above.</p> <p>64. In case of SSIP, the amount shall be derived based on the Net Equity allocation percentage of KBAF on the Trigger date and not on the SSIP date. Hence, the SSIP Amount will be of T-10th day (i.e Trigger Date) assuming the instalment is triggered 10 days before the SSIP date.</p> <p>65. In case of SSTP, the amount shall be derived based on the Net Equity allocation percentage of KBAF on the Trigger date and not as on the SSTP date. Hence, the SSTP amount will be of T-1 day (i.e. Trigger Date) assuming the instalment is triggered 1 day before the SSTP date.</p> <p>66. In case of first SSIP it can be for any day of the month, however subject to the condition that, there shall be a minimum gap of 28 days between the first, second and subsequent SSIP Instalments. Investor can choose any date from 1st to 31st of a given month/quarter for the purpose of SSIP. Kotak Mahindra Asset Management Company Limited (AMC) reserves the right to register the SSIP in less than 28 days where One Time Mandate (OTM) is already available.</p> <p>67. For SSIP, if the Maximum amount exceeds the OTM maximum amount, then the OTM maximum amount would be triggered. In case if the Minimum amount is less than the Minimum SSIP amount for the Scheme, then the Minimum SSIP amount will be considered.</p> <p>68. For SSTP in case if the Minimum amount is below the Minimum SSTP amount of the Eligible (Transferor) scheme, then the amount considered would be the minimum SSTP amount of the Eligible (Transferor) scheme.</p> <p>69. In case of SSIP if the end date is not mentioned/ incase of ambiguity the end date considered should be Dec, 2099. In case of SSTP if the end date is not mentioned/ in case of ambiguity the SSTP shall continue till availability of funds in the source (Transferor) scheme.</p> <p>70. In case of SSIP if the preference is not completely mentioned by the investor or in case of any discrepancy the frequency would be assumed as Monthly, 7th as the default date and name of the scheme shall be as mentioned in the accompanying investment application forms.</p> <p>71. In case of SSIP the Transaction charges, shall be applicable only if</p>
--	--

the total commitment through SSIP amounts to 10,000 /- & above. In case of SSTP the transaction charge shall be applicable only if the total commitment through SSTP amounts to Rs.10, 000/- & above. In such cases the transaction charge shall be recovered in first 3/4 successful instalments.

72. In case of SSIP an Account Statement confirming the unit holder's SSIP would be sent within 10 business days from the date of first SSIP. Confirmation for subsequent SSIP's would be sent as Consolidated Account Statements (CAS) on monthly basis.

73. In respect of SSIP/SSTP enrolments made in any of the Eligible schemes/Scheme, the load structure prevalent at the time of enrolment shall be applicable to the investors during the tenure of the SSIP/SSTP

74. In case of SSTP, registration request needs to be submitted to the Computer Age Management Services Private Limited, Registrar and transfer agent ("RTA") of Kotak Mahindra Mutual Fund (Mutual Fund) /AMC 7 days prior to the date of commencement of SSTP. In case the SSTP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SSTP registration request received for a period lesser than 7 days in the interest of unit holders.

**Calculation for SSWP amount:**

75. The amount to be withdrawn in case of SSWP shall be basis the details as mentioned below:

For SSWP		
(D)	(E)	(F)
Net Equity Allocation of KBAF	Default option	Investor defined Amount
> 60%	0.5 times Base SSWP Amount	Investor defined Minimum SSWP Amount
40-60% (inclusive of 40 and 60)	Base SSWP Amount	Base SSWP Amount
< 40%	2 times Base SSWP Amount	Investor defined Maximum SSWP Amount

**For SSWP:**

76. If the net equity allocation percentage of KBAF for the trigger date is greater than 60%, then SSWP amount would be half the Base SSWP amount or Investor defined Minimum SSWP Amount, if specified by the investor.

77. If the net equity allocation percentage of KBAF for the trigger date is between 40% and 60% (including 40% and 60%), then Base SSWP amount would be triggered.

78. If the net equity allocation percentage of KBAF for the trigger date is less than 40%, then SSWP amount would be twice the Base

	<p>SSWP amount or Investor defined Maximum SSWP Amount, if specified by the investor.</p> <p>79. In case of SSWP, the investor has an option to mention the Minimum amount/Maximum amount. In case no amount(s) are mentioned by the investor, the amount to be withdrawn shall be as per Default option, as per details mentioned under column (E) above.</p> <p>80. The SSWP Amount shall be derived based on the Net Equity allocation percentage of KBAF on the Trigger date and not as on the SSWP date. Hence, the SSWP Amount will be of T-1 day (i.e. Trigger Date) assuming the instalment is triggered 1 day before the SSWP date.</p> <p>81. If SSWP end date is not mentioned/ incase of ambiguity the same shall be processed till there is available balance in the applicable Eligible scheme.</p> <p>82. In case of SSWP registration needs to be submitted to the RTA/ AMC 7 days prior to the date of commencement of SSWP. In case the SSWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SWP registration request received for a period lesser than 7 days in the interest of unit holders.</p> <p>83. For SSWP, in case if the Minimum amount is below the Minimum SSWP amount of the scheme , then the amount considered would be the minimum SSWP amount of the scheme.</p> <p>84. SSWP is not to be conceived as an assurance on part of Kotak Mahindra Mutual Fund that the investor will manage to receive a particular sum of money/ appreciation/ and/ or fixed % of sum.</p> <p>85. The Base SSIP/SSTP/SSWP amount, Maximum SSIP/SSTP/SSWP amount and Minimum SSIP/SSTP/SSWP amount specified by the investor must be in multiples of Re. 1 (whole numbers only, no decimals eg: Rs. 20001, Rs.30015).</p> <p>86. The SSIP/SSWP and SSTP shall be applicable for applications routed through Mutual Fund's website <a href="http://www.kotakmf.com">www.kotakmf.com</a> and physical applications submitted at specified investor service centers of the RTA.</p> <p><b>87.</b> In case of first SSIP/SSWP/SSTP installment, it shall be processed for the Base SSIP/SSTP/SSWP amount as specified by the investor at the time of enrollment, and will not be based on the Net equity allocation percentage of KBAF.</p> <p>88. SSIP/SSWP shall be available only for Growth Option of the Scheme. In case the unit holder has opted for SSWP facility and subsequently switches from growth to Income Distribution cum Capital Withdrawal option, the SSWP facility will be automatically deactivated. In case of SSTP, it shall be applicable for both IDCW and growth option for transferor scheme however in case of transferee scheme it shall be applicable only for growth option.</p> <p>89. SSIP/SSWP/SSTP will not be available if the folio/PAN is under</p>

## D. Computation of NAV

The AMC shall compute NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The AMC shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

NAV =	Market or Fair Value of Scheme's investments	+	Current assets including Accrued Income	-	Current Liabilities and provisions including accrued expenses
	No. of Units outstanding under the Scheme/Option.				

NAV for the Schemes and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto three decimals. The NAV of Direct Plan will be different than the NAV of Regular Plan.

Computation of NAV will be done after taking into account IDCWs paid, if any, and the distribution tax thereon, if applicable. Therefore, once IDCWs are distributed under the IDCW Option, the NAV of the Units under the IDCW Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units issued under the Growth Option remain invested and are reflected in the NAV of the Units.

### Illustration for Computation of NAV:

NAV=	Market or Fair Value of Scheme's investments	+	Current assets including Accrued Income	-	Current Liabilities and provisions including accrued expenses	
	No. of Units outstanding under the Scheme/Option.					
10.109=	10,01,00,000.00	+	10,00,000.00	-	10,000.00	10,10,90,000.00
			1,00,00,000.00			1,00,00,000.00

## V. FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme.

### A. New Fund Offer (NFO) Expenses

These expenses are incurred for the purpose of various activities related to the NFO like marketing and advertising, Brokerage, registrar expenses, printing and stationary, bank charges etc.

The New Fund Offer expenses of the scheme will be borne by the AMC.

### B. Total Expense Ratio (TER)

Total Expense Ratio is the total of ongoing fees and operating expenses charged to the scheme, expressed as a percentage of the scheme's daily net assets.

These fees and expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, brokerage/commission, marketing and selling costs etc.

As per Regulation 52(6)(c) of SEBI (MF) Regulations, the total expense ratio of the scheme excluding issue or redemption expenses, whether initially borne by the mutual fund or by the asset management company, but including the investment management and advisory fee shall be subject to the following limits:-

Assets under management Slab (In Rs. crore)	Total expense ratio limits
on the first Rs.500 crores of the daily net assets	2.25%
on the next Rs.250 crores of the daily net assets	2.00%
on the next Rs.1,250 crores of the daily net assets	1.75%
on the next Rs.3,000 crores of the daily net assets	1.60%
on the next Rs.5,000 crores of the daily net assets	1.50%
on the next Rs.40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof.
on balance of the assets	1.05%

### Total Expense Ratio for the scheme

The AMC has estimated following recurring expenses, as summarized in the below table for the scheme. Total expense ratio of the Scheme (including investment and advisory fees) will be subject to the maximum limits (as a percentage of Daily Net Assets of the Scheme) as per Regulation 52(6) & (6A), as amended from time to time, with no sub-limit on investment and advisory fees.

Additional expenses for gross new inflows from specified cities	Upto 0.30%

# The AMC shall not charge additional expenses under Regulation 52(6A)(c) in case exit load is not levied/ not applicable

**Expense Structure for Direct Plan** – The annual recurring expenses will be within the limits specified under the SEBI (Mutual Funds) Regulations, 1996.

Commission/ Distribution expenses will not be charged in case of Direct Plan. The TER of Direct Plan will be lower than Regular Plan.

In terms of the Para 10.1.12 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, all fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

However, Direct Plan shall have a lower expense ratio than the Regular Plan. The expenses would exclude distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

#### **Additional expenses which may be charged to the Scheme**

The following additional expenses may be charged to the Schemes under Regulation 52 (6A), namely-

- Brokerage and transaction cost incurred for the purpose of execution shall be charged to the schemes (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Funds) Regulations, 1996.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 30 cities are at least:
  - (i) 30 % of gross new inflows in the scheme; or
  - (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Provided further that the additional TER can be charged based on inflows only from 'retail investors' (Para 10.1.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, has defined that inflows of amount upto Rs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor") from beyond top 30 cities.

Provided that the additional commission for beyond top 30 cities shall be paid as trail only.

In case inflows from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X New inflows from individual investors from beyond top 30 cities  
-----  
365\* X Higher of (i) or (ii) above

\* 366, wherever applicable.

Additional expenses upto 0.05% of daily net assets of the schemes, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

Clause 4 of Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 which restricts investments in mutual fund units upto 5% of net assets and prohibits charging of fees, shall not be applicable to investments in mutual funds in foreign countries made in accordance with guidelines as per Para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023. However, the management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the overseas mutual fund(s), the same principle shall be applicable for that part of investment.

#### **TER for the Segregated Portfolio**

1. AMC shall not charge investment and advisory fees on the segregated portfolio. However, TER (excluding the investment and advisory fees) can be charged, on a pro-rata basis only upon recovery of the investments in segregated portfolio.
2. The TER so levied shall not exceed the simple average of such expenses (excluding the investment and advisory fees) charged on daily basis on the main portfolio (in % terms) during the period for which the segregated portfolio was in existence.
3. The legal charges related to recovery of the investments of the segregated portfolio may be charged to the segregated portfolio in proportion to the amount of recovery. However, the same shall be within the maximum TER limit as applicable to the main portfolio. The legal charges in excess of the TER limits, if any, shall be borne by the AMC.
4. The costs related to segregated portfolio shall in no case be charged to the main portfolio.

**Goods and Services tax:**

Goods and Services tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the scheme, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

For the actual current expenses being charged, the investor may refer to the website of the mutual fund.

The mutual fund shall update the current expense ratios on the website ([www.kotakmf.com/assetmanagement.kotak.com](http://www.kotakmf.com/assetmanagement.kotak.com)) at least three working days prior to the effective date of the change. The web link for TER is <https://www.kotakmf.com/Information/investor-service>

**Illustration of impact of expense ratio on scheme's returns:**

Particulars	Regular Plan	Direct Plan
Amount Invested at the beginning of the year	10,000	10,000
Annual Returns before Expenses	800	800
Expenses other than Distribution Expenses	75	75
Distribution Expenses / Commission	25	-
<b>Returns after Expenses at the end of the Year</b>	<b>700</b>	<b>725</b>

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/ commission.

### **C. Load structure**

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of [www.kotakmf.com](http://www.kotakmf.com) or may call at 1800-22-2626 or your distributor.

#### **Entry Load \*- Nil**

#### **Exit Load \*\*-**

- For redemption / within 30 days from the date of allotment: 1%
- If units are redeemed or switched out on or after 1 year from the date of allotment: NIL

Units issued on reinvestment of IDCW shall not be subject to entry and exit load.

\* In terms of Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, no entry load will be charged on purchase / additional purchase / switch-in. The commission as specified in aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

\*\* Any exit load charged (net off Goods and Services tax, if any) shall be credited back to the Scheme.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

As required under the Regulations, the asset management company shall ensure that the repurchase price of an open ended scheme is not lower than 95% of the Net Asset Value.

The investor is requested to check the prevailing load structure of the scheme before investing.
